

## INDIANS PUT ON CREDITABLE FAIR

Splendid Exhibits In All Departments At Lac du Flambeau

Some splendid displays of agricultural products, live stock, domestic articles and fancy work were shown at the recent fair presented by the Indians on the Lac du Flambeau reservation. In every respect the fair was the best ever seen on the reservation. That the Indians are making rapid strides along all branches of the farming industry is evident from the quantity and quality of the exhibits. The handicraft of the women and girls demonstrated their natural ability in this craft.

In the entertainment line ball games, foot and pony races and other sports comprised the program. Two base ball contests between the Lac du Flambeau and Olanah Indians proved very exciting. Lac du Flambeau won both games.

The baby show was an interesting and amusing part of the fair, about which unusual interest centered. Nearly all the babies on the reservation were entered in the prize competition. Healthy, brown skinned little papooses, crying and laughing, presented a perplexing problem for the judges in awarding honors.

It is regrettable that Rhinelander did not send a larger delegation to the fair. The few from here who did attend felt well repaid for the trip. On the whole the attendance at the fair was most gratifying to Superintendent Balmer and his assistants who are entitled to no little credit for the success of the event.

## STONE LAKE MAY BE SCHOOL SITE

Miss Broadbridge, who was in Rhinelander two weeks ago, seeking a site for a girl's boarding school, writes Postmaster Matt Stapleton that she would locate the school on Stone Lake, this county, providing that electricity could be transmitted from this city to the school and favorable means of transportation to Stone Lake be arranged.

Miss Broadbridge stated in her letter that she has other locations in view near other cities, but feels that with the conveniences requested Stone Lake would be the most suitable.

Directors of the Rhinelander Advancement Association considered Miss Broadbridge's offer at their meeting Monday night but came to no definite decision.

## NO CITIZENSHIP FOR KAISER'S MEN

Subjects of Germany cannot obtain citizenship in this country until after the war. Germans, who had planned to have their applications for citizenship acted upon at the September term of circuit court, have been notified by Clerk of Court E. C. Sturdevant that there will be no hearings in their cases. Citizenship papers cannot be granted to natives of a foreign country with whom the United States is at war.

## TIME CLOCK FOR POSTAL CREW

Uncle Sam is going to keep tab on the working time of employees at the Rhinelander postoffice. Not that this is necessary as there is not a harder working postoffice crew anywhere in the country than that of the local office, but the new time clock just installed is only part of the system which the government employs in all post offices of this size.

The new clock is on the same order as the factory time clock. As each employee goes on duty he punches the clock and does the same when he leaves. This is kept a faithful record of the arrival and departure of everyone of the force. Even Postmaster Stapleton is not exempt from punching the clock.

## RUSK COUNTY FAIR

One of the most striking features of the Rusk County Fair to be held Sept. 25 to 28, will be the cattle show, there being more entries than ever before in its history. Excellent attractions have been provided. All Iowans in Upper Wisconsin are invited to go on Tuesday, Iowa Day, when either Senator Kenyon or Governor Harding will speak.

## MRS. PIERCE TO SERVE NATION

Will Act On Woman's National Committee Of Defense Society

Mrs. A. S. Pierce of this city has been invited to serve on the Woman's National Committee of the American Defense Society.

"Germany today is mobilized to the last man and woman and if America is to win this war America must mobilize not only men at the front but those at home," thus the American Defense Society continues in an appeal to all American citizens as follows:

We are at war with the leading military nation of the world. The first of our troops are now under fire in France. Our sailors on the high seas are facing the attack of submarines. We have established a line of troop ships. The National Guard has been called into Federal service. We are building enormous army camps. We have registered 10,000,000 young men for service.

Congress has voted a war credit of billions. There is \$10,000,000 for airplanes alone. The navy yards are working three shifts a day. The shipbuilding companies are launching a fleet of wood and steel. The President, the Cabinet, Congress, the men in the navy, those in the trenches, and the great army in training camps are all doing their part.

It is proposed to hold during the month of October a series of theater parties, carnivals, fairs, garden parties, etc., throughout the country, and in this behalf Mrs. A. S. Pierce of this city has been asked to serve with Mrs. J. W. Harriman, Mrs. N. L. Beekman, Mrs. Theodore Roosevelt, Jr., Mrs. Robert Lansing, Mrs. Chas. S. Whitman, and the other members of the Woman's National Committee to assist the American Defense Society in the important work yet to be done.

## REARDON WINS THIRD IN ANTIGO

At the registered shoot held under the auspices of the Antigo Gun Club in that city Sunday, Ronald Reardon of this city, made a score of 109 which won for him third place. That a member of the local gun club should covet this honor is pleasing to the organization.

High score was made by Captain Jack Wolf of Milwaukee, a marksman of national reputation, whose tally was 114. With a score of 113 W. P. Cobletz of Antigo gave Capt. Jack a tight squeeze. Fourth place went to F. G. Wuchmann of Wausau, whose score was 108, and Antone Molle of Antigo was fifth with 107.

The shoot was one of the most successful ever held in northern Wisconsin. About forty of Wisconsin's leading shots were entered and some big prizes were hung up. An enormous crowd witnessed the event.

## 26 JOIN NEW GUARD COMPANY

Much enthusiasm was displayed at the meeting at the Armory Friday night called for the purpose of organizing a state guard company for Rhinelander. There was a fair sized attendance and twenty-five names were signed as charter members of the new company. This list has since shown an encouraging increase and many have announced their intention of joining. No trouble in securing the necessary quota of men is anticipated.

E. O. Brown, C. P. Crosby and Dr. H. L. Garner addressed Friday's meeting. Mr. Brown and Mr. Crosby promoted the movement for the company and are active in the campaign for members.

## MAHONEY BUYS BEAUTIFUL TRACT

Mike Mahoney of this city has just purchased the Barnum timber lands, consisting of five descriptions, near Squirrel Lake, Oneida county. This is a tract of virgin pine and is considered one of the most beautiful woods in this section of Wisconsin.

Mr. Mahoney may cut the timber, but does not intend to do so the coming winter. He says that not long ago a big lumber concern desired to buy this tract but would not pay the price demanded.

Mrs. H. Marquardt and son Earl, were in Milwaukee this week to consult a physician about an injury to the boy's arm.

## LAND TRAIN HERE NEXT WEEK

F. M. White, advance agent for the "Land Clearing Special" was in Rhinelander Monday arranging for the coming of the train to this city next week. The special, consisting of eleven cars, will arrive here over the Northwestern line from the north next Sunday morning.

Demonstrations will be conducted on the Crofoot farm. Early Monday morning a force of twenty-five men will be busy on this tract. Demonstrations this year are being given on a strictly commercial basis and the land is cleared ready for cultivation. Several methods are being tried out in an endeavor to learn the best. New equipment as well as equipment long on the market is being used.

It is planned to make Friday of

next week a general "round-up" for the farmers. Farmers from all over the county are requested to be present on this day. Steps will be taken toward the organization of a county land clearing association. There will be a hot "booyah" served by those skilled chefs, W. E. Vaughan and J. J. Remo. When these gentlemen prepare the show no one goes away hungry.

The "Land Clearing Special" is sent out under the direction of Wisconsin University Agricultural College with the cooperation of the Northwestern, Omaha and Soo railway companies.

The following firms have representatives with the train: Du Pont Powder Company, A. J. Kirstin Company, La Plant, Choate Company, McMill Iron Works, and Dayfield Iron Works.

## FOOT BALL DAYS ARE HERE AGAIN

High School Team Will Play First Game With Alumni Saturday

Football practice in charge of Coach Eggbrecht is going on with admirable vigor every afternoon on the Curran school grounds. Although a number of the older boys have withdrawn for military service, a large squad is at work. The season opens Saturday with a game to be played against the alumni at the fair grounds. Many of the old time gridiron stars, including Frognier, Foster, and Bonnie, will be seen in the alumni line up.

The enrollment of the high school has grown to 279, the largest in the history of the local school. During the year a total enrollment of 300 will probably be reached.

Miss Margaret Coon has secured leave of absence on account of her mother's illness. Her place is being filled by Miss Anna Reardon.

Miss Elizabeth Walters, supervisors of music and drawing, came to the city Tuesday from Chicago Heights to begin her work, having been detained by illness.

The vocational courses of the school prove very popular. The freshmen domestic science class numbers 55, while 57 are enrolled in the junior course in stenography. The Latin classes are small, and but seven out of a class of over sixty juniors have selected the study of German, which formerly was a most popular course.

Sept. W. P. Colburn left Tuesday night for Menominee, Wis., to attend a session of the superintendent of the industrial schools of the state. He will be gone for the remainder of the week.

## WOMAN'S CLUB ISSUE PROGRAM

"Civics and Problems of the Day" is the study topic of the Rhinelander Woman's Club for the new year, according to the programs just issued. October 2 is the date of the first meeting.

The club has sixty nine members with officers as follows: Mrs. B. R. Lewis, President; Mrs. W. P. Colburn, Vice-Pres.; Mrs. W. A. Brown, Secretary; Mrs. T. J. Pattinson, Treasurer.

The Chairmen of the Standing Committees are, Education, Mrs. J. S. Miller; Library, Mrs. E. J. Annen; Civics, Mrs. E. O. Brown; Social, Mrs. W. T. Stevens; Music, Mrs. E. A. Forbes.

October 17, 18 and 19 are the dates of the twenty-first annual convention of the Wisconsin Federation of Women's Clubs in Madison. Three delegates from the Women's Club and two from the Monday Club in this city will attend the convention.

## HONOR FOR FRICKE

Charles W. Fricke, formerly district attorney of Oneida county, was on September 14 appointed deputy district attorney of Los Angeles county, California. In writing to the New North of his appointment Mr. Fricke says:

"It may be of interest to you that I have been appointed deputy district attorney of Los Angeles county. The term of a liking for the prosecution's side of a criminal case, implanted in Oneida county, has again burst forth. With best wishes to you and the good people of Rhinelander and Oneida county, I am, sincerely yours, CHARLES W. FRICKE."

George Richard now sports an Overland car.

## WISCONSIN MAY MISS NEXT DRAFT

Governor Asks War Department For Right To Use Volunteer System

A Madison dispatch states that if the war department is willing, Wisconsin's second draft will be composed entirely of volunteers.

Gov. E. L. Phillips has written Secretary of War Newton D. Baker, asking permission to put in force the plan worked out by Adj. Gen. Orlando Holway of the Wisconsin National Guard.

Approval by President Wilson and Secretary Baker is necessary before the step can be taken.

The second draft army is expected to be raised the latter part of this year or the first of next and it is assumed that the same number of men will be required to be recruited up to its full war strength.

It is Gen. Holway's idea that this number can be raised, if Washington will allow the Wisconsin National guard to recruited up to its full war strength.

Each of the eight Wisconsin regiments numbers 2,602 men, according to department regulations, said Gen. Holway. "The war department, however, has increased this war footing to 2,640 men for each regiment. If we are allowed now to recruit these regiments up to the new figure, it would mean an addition of some 13,000 men to the guard."

We have 3,000 volunteers who enlisted after June 5, and who will be taken into consideration in the next draft. This means that if we are allowed to go ahead we would receive credit for 16,000 men as soon as the regiments were recruited up to the full strength, and I do not believe it would take long to do this.

"A few new companies would be formed, but the majority of the men would go right into the present companies."

"If this were done it would not only take care of the next draft, but it would give us a start of 4,000 men on the third draft."

Draft Administrator Edward A. Fitzpatrick has endorsed the plan.

## CAN FLY NOW

Clarence Lindgren, son of Mr. and Mrs. Axel Lindgren, who is training for a government aviator in Hantout, Ill., writes his parents that he has grown his full feathers and is able to fly without assistance.

Clarence states that an aviator's life would never appeal to anyone afflicted with the book worm for it is mostly work. Although he is never among the clouds for more than thirty minutes a day, he feels when he comes down to terra firma as though he had pumped a hand car a week.

Clarence says he doesn't intend to wear one of his father's \$16.50 suits for some time to come. Uncle Sam provides his uniform which costs about \$100.

## MUST TAKE OUT LICENSE

Mrs. Bertha Gilbert, who conducts the Beach Inn at Pelican Lake, was arraigned in municipal court, Saturday, on a charge of selling liquor without a license. Judge Smith fined her \$50 which was remitted on condition that she does not in the future operate her saloon without a legal license.

## REMOVING OLD "SKY SCRAPER"

The rear of the old Grand Opera House building is being dismantled. The high scenery loft above the stage will be removed. While Rhinelander is not long on high structures this is one "sky scraper" which none will regret to see demolished.

## LITTLE PROSPECT FOR NEW PLANT

Not Probable That Dehydrating Industry Will Locate Here

Secretary E. O. Barstow, of the Rhinelander Advancement Association, says there is little prospect of the proposed vegetable dehydrating plant locating in this city. Chicago parties are back of the project to establish the plant here, but it is the general opinion that nothing definite will materialize.

According to the Chicago men they possess a formula for dehydrating vegetables which would be employed in the plant. They had samples of vegetables which had been treated by the process and stated that these vegetables would keep in any climate for any length of time. They seek local capital for the industry and ask that a liberal amount of stock be taken up here.

One well known Rhinelander business man stated Wednesday that the proposition did not impress him. He thought that it would be a hard matter to get financial support for such an undertaking here at this time.

## MAY EXAMINE ALL FOR NEXT DRAFT

Crowder Plans To Prepare 7,000,000 Men For Second Army Quota

Dr. H. L. Garner, member of the district exemption board for the western Wisconsin district has received notification from Provost Marshal Gen. Crowder that he is considering a plan to examine all registrants for the next army quota.

The letter reads: "To evolve the first quota of 687,000, it is estimated that approximately 3,000,000 registrants have been examined. The remaining 7,000,000 are naturally in a state of unrest. All are subject to call and none know whether he may be taken or not. They find employment difficult and they must hesitate to embark on any enterprise that requires their continued presence. This state of precarious equilibrium is bad for them and bad for the repose of the public mind. These men should be examined as soon as possible."

"We should never again attempt the breathless schedule we have just completed. By the time the second call is made, we should have a list of availables ready to fill it at once. If the whole list is examined it may be possible to arrange the order of liability in accordance with the degree of availability and thus make the selection the more truly selective. This cannot be done unless the whole list is examined."

"Lastly our boards are now trained, tried and instructed. The system is efficient and to allow it to lapse into disuse even for a few months will destroy it. We must avoid this. For this reason, it is proposed to proceed in an unhurried manner, that will permit board members time to attend to their private affairs and to examine the whole list of registrants. The secretary of war desires your advice on this proposal. With some nonessential changes of method, it is believed that the amount of work can be greatly reduced and by proceeding without haste it is thought that the hardship on members of boards can be relieved."

"The suggestion here made must not be taken as evidencing any lack of appreciation of the enormous amount of work and the great personal sacrifice that has already been demanded of the system of boards and the several state headquarters, but we are assured that the revised procedure we have in mind will obviate over 50 per cent of the work, and will vastly reduce the hardship that has hitherto attended it."

"A decision must be reached very shortly. Will you please let us have your views by letter within the next few days, first as to the general availability of the plan; second, as to any suggestions concerning it or the regulations under which it should proceed."

## WELL EQUIPPED POTATO HOUSE

The new warehouse of the Hartman Fruit & Produce Company in North Crandon is one of the finest buildings of its kind in Wisconsin, according to Ernest Axtell of the county.

The building is 40x114 feet, solidly constructed and equipped with everything to make easy the handling of potatoes, including two power sorters, elevators and conveyors. Forty cars is the capacity of the house.

## BIG HAZELHURST FAIR SEPT. 29

Many Features — Attractive Prize List — Large Crowds Expected

An attractive list of fine prizes. An address by Mr. W. D. Juday. A pig to be given to holder of lucky number.

A chicken race for the children. A dance in the evening with music by the celebrated Hazel M. Crawford orchestra of Rhinelander.

All these are features of the big Community Fair to be held at Hazelhurst, Saturday, Sept. 29.

All seem to be making preparations but to insure this fair a success, it is up to everyone in this community, to enter whatever produce he has.

You can't expect others to enter theirs, if you don't enter yours. So don't hesitate. Do something. Bring whatever produce you have raised. They might be of a prize winning quality. Take a chance—Columbus did—look where he landed.

Talk the fair to everyone you see—get him or her in a corner, and impress upon them, the fair will be held September 29, that his or her presence is desired.

AND ABOVE ALL, ATTEND IT YOURSELF.

It can only be made a great success by your cooperation, and by exhibiting and attending.

WILL YOU DO YOUR SHARE?

## BAND MAKES HIT AT STATE FAIR

Members of the Rhinelander City Band have just cause to be proud of the creditable showing which they made at Milwaukee during their three days state fair engagement. That the band was one of the best on the grounds was readily admitted by judges of music. This is saying a great deal when it is considered that more than a dozen bands, including several of the crack bands of Wisconsin, were at the fair.

The Rhinelander band was given the best positions in all programs and parades and was accorded liberal applause whenever it appeared.

Director E. K. Reik was the recipient of a large number of compliments on his efficiency as a leader and the high perfection of his organization. It is more than probable that the state fair management will contract for the band next year.

Most of the musicians returned from Milwaukee Friday. They thoroughly enjoyed every minute of their trip and speak in glowing terms of the square treatment and courtesies shown them by state fair officials.

## NEAL BROWN DIES IN WATKINS, N. Y.

Neal Brown, one of the most prominent attorneys in the Wisconsin valley and who had a large acquaintance in this city, died Tuesday night in a sanitarium in Watkins, N. Y.

Mr. Brown campaigned for Blaine in 1884 but in 1888 supported Cleveland on the tariff issue and has been a Democrat ever since. In 1890 he was elected a member of the assembly and in 1892 state senator. He was twice a candidate for United States senator against Spooner in 1893 and was given the democratic nomination in 1899. He was twice a delegate to national conventions.

Mr. Brown was a thoroughly well read man and a writer of much ability. Many of his writings had a touch of rare humor. As an orator he was convincing and eloquent and he was always in request as a speaker on public occasions.

## JUDGE REID TO TRY FAMOUS CASE

According to an announcement made Tuesday, Judge Reid of Wausau will come to Milwaukee on Nov. 3, to try the famous court house injunction case, in which Thomas J. Neacy and Joseph Galst have begun action against the county board, attacking the validity of all proceedings, relating to the movement of the courthouse from the East to the West side of the city.—Milwaukee Daily News.

## THEY WISH TO WED

Marriage licenses have been issued to Henry Kress, Crescent, and Katherine Cramer, Rhinelander; Charles Hunn, Ironwood, and Marguerite Ellis, Rhinelander.

AGENT WANTED IN THIS TERRITORY

**FRANK J. EDWARDS, Manager**  
**THE KISSELKAR CO.**  
 178-80 Seventh Street. Milwaukee, Wis.

**Tomahawk.**—A deal, which has been under way for some time, has nearly been completed whereby the Geo. D. Taylor & Sons company of St. Paul will purchase the plant of the Tomahawk Stave & Heading company and which will be reopened for manufacturing purposes as soon as the equipment can be put back into shape. This will be welcome news to all and will mean that there will be no more idle property in the city.

**Florence—** Mining operations were suspended at the Florence mine Tuesday due to orders received from New York. This suspension is on account of the large stock pile of ore and the vessel situation. This is not on ly the case of the Florence Iron Co. but with many others on the range. The company, with deep regret, laid off 20 men, but most of these men found employment on the new dam being built by the Peninsular Power Co., three miles north of this city on the Brule river. The Ernst mine will continue to work the both shifts but ore will only be hoisted on the one shift.

**Ashland—** Although so badly frightened and so weak from exposure and hunger that he could not speak when found 4-year-old Michael Janco, lost in the woods from Monday afternoon until Thursday afternoon near Ashland, will recover. He was brought to a local hospital after treatment at the home of Joseph Joblonsky, whose 8-year-old son, John, discovered the missing "babe in the woods." The child had sucked his fingers and they had been wet and cold so long that they were shrunk in appearance and his little legs and arms were scratched and bleeding from his forcing his way thru the brush. He was found more than four miles from where he was last seen, and appeared to have walked many times that distance in a circuitous route. When discovered he acted like a wild animal in attempting to conceal himself behind some bushes, apparently thinking the searchers might hurt him.

**Ironwood—**

Officials of companies operating iron ore mines in the Lake Superior country will soon turn their attention to the development of low grade properties, as the time is not far distant when low grade ores will be in better demand than they have ever been before. Federal officials recently announced that new

experiment stations are to be established to try and find methods of conserving the ore supply of the Lake Superior district. The Oliver Iron Mining company is one of the few companies operating in this district that has been successfully using the low grade ores. This has been made possible by its washing process, introduced some years ago on the Mesaba range. The company spent nearly \$200,000 in experiments before the desired results were obtained at Coleraine, and it is still spending money to improve the methods. The process has been a complete success in the Western Mesaba district. A large part of the low grade ore produced there is used by mixing it with the higher grades.

**New London—**  
A car loaded with explosives was derailed on a side track at New London Junction. It stood for a day before a wrecking crew could come to right it again and people residing in that locality and the traveling public kept at a safe distance while it was there. The large placards nailed on the car were sufficient to keep the crowds away and there were some who went so far as to imagine that possibly the derailling of the car was the beginning of a plot to blow up that part of this city. The wrecking crew came finally and placed the car on the rails. While the car was in the air to be swung straight with the rails there was a slight slip. It was all that was needed to put fright into the spectators and a near panic was witnessed as the get away. All is now quiet again and the car with its death dealing cargo has gone on its way.

Sliding from a load of hay after throwing a pitchfork to the ground, George McLeod, aged 40, a farmer residing near Harris, late Wednesday afternoon suffered injuries that caused his death about four o'clock Friday morning. He died at an Escanaba hospital. McLeod's stomach was punctured by the pitchfork handle when he slid to the ground. He was badly torn internally and lost such a large amount of blood that death was inevitable. He is survived by a wife and three children.

**EXPERIENCE THE  
BEST TEACHER**

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it, it is prompt and effectual and pleasant to take.

ALL DEALERS.

**METHODIST EPISCOPAL**  
S. S. at 10 o'clock prompt. Men's  
class at same hour. All men are  
invited to attend this class.  
Morning worship at 11 o'clock  
when the pastor will speak on  
"Immovable Anchors."  
Epworth League at 6:45 to be  
conducted by Miss Bernice Zitz.  
Evening service at 7:30. Subject  
"A Man's Choice."  
Prayer meeting on Thursday evening  
at 7:30.

You are cordially invited to attend these services. Come in crowds. Remember, the power of good example is a heritage that makes itself felt after many generations.

Whoever means to count much in doing good has no time to waste in youth.

Evils must be fought until they are utterly destroyed. Faithfulness in any service for God is never overlooked by Him.

"She seems to be a natural fir," said "Natural!" the woman impatiently piled. "There's nothing natural about her but the framework."—Chicago Examiner.

**FEDERAL BUREAU OF INVESTIGATION**  
 EXTENSION DIVISION  
 HEALTH INSTRUCTIONS BUREAU  
 400 LEXINGTON AVENUE, NEW YORK 17

One of the amazing truths has taken war to bring home is that an enormous number of Americans are so badly handicapped by weak or flat feet as to be unfit for military service. Navy, for instance, it is accurately stated that next to no more applicants are turned away on account of weak feet than on other single cause. Most of them are men who wanted the honor of entering the government as a profession.

It may be safely assumed those rejected were far from normal physically. They were comparable to physical specimens picked from army and navy. How many of them must be who from what they would like to do by defects know themselves!

Weak or flat feet are uncomfortable and in the vast instances they are entirely useless simple measures. No shoe is ever weak footed, may be normally flat for this doesn't matter if it is strong and free from prolonged use.

Obviously, when so large a portion of shoe wearers have weak feet, there must be something radically wrong with the fault, in many instances in the lack of balance. The fault, in many instances, is somewhat out of position and the result is stretching and breaking of muscles and ligaments shouldn't be stretched a High, tightly laced shoe normal motion and rest result in a weaker arches and a gradual breaking of the arches.

Parents should be responsible for their children's shoe manufacturers and if necessary, to get proper shoes for their children. Usually it is difficult for the shoe manufacturers to make proper shoes, not only because they aren't willing to, but also because there are so many fool parents who don't care for their people that he is able to make the fool shoes.

Miss Stella Lane  
 home in Marshfield  
 a two weeks visit  
 here.

When you buy an advertised brand of any food product, you are protected against under-weight, short measure, misrepresentation and over-charge.

For the manufacturer, however, thorough advertising, standardized product, every package is the same in size, weight, quality and price as every other package bearing that label.

You are thus protected against the practices of unscrupulous dealers, for advertised goods are standardized. They are the same wherever they are found, in the city store or the village store, the downtown store or the suburban store, the city store or the country store.

By placing his trademark or brand name on the package, the manufacturer identifies his product and thus assumes responsibility for the quality and for correct weight and measure. By so doing he takes his reputation upon the product and therefore MUST give satisfaction with every package.

You get STANDARD VALUE when you buy STANDARD ADVERTISED GOODS.

his led to the marketing of the product in a package or container bearing a distinctive label. When you buy STANDARD AD-VENTIST package food, you buy sanitary foods.

**Advertising Protects the Consumer**

A study of the elements of advertising has shown that the most interesting and profitable part of the business is the chemical and physical changes that are necessary to make the food safe and palatable.

Advertising is largely responsible for the development of the package. When a manufacturer makes a product in preference to some other competing brand. This required that the identity of the product in some readily way to the consumer. This required that the identity of the product in some readily way to the consumer. This required that the identity of the product in some readily way to the consumer.

Sanitary food products are put up in packages by the manufacturer. Only by buying in the package the consumer be assured that the product is sanitary. Bulk goods offer too many opportunities for contamination by dirt, dust, mice and other vermin. As a consequence, today is witnessing the passing of the butter tin, the lard tub, the lard fruit tin, the cracker barrel and the tea and coffee bin. Today we buy all these and many other necessities for home and table in packages.

**Package Foods  
Are More  
Sanitary**

"Why do we eat meat?" asks Dr. Daniel Claude in an article in Nature, and he answers this question by saying, "First to supply the albumen necessary to our bodies, then because meat is a pleasant food, easily digested and assimilated."

Many physiologists have estimated the quantity of albumen necessary to our systems and have given widely differing figures, but today it is generally held that one grain per day per kilogram of body weight is ample—that is to say, that a man weighing 160 pounds actually needs only between five and six ounces of albumen a day. Children and growing youths need more. Meat, however, is not the quality food that is rich in albumen. A quarter of a little cheese, for instance, contains as much albumen as half a pound of beef-steak. Lentils, peas and beans are from 25 to 75 per cent albumen, which means that three vegetables are worth actually more than meat and cost far less.

"According to Dr. Claude, our daily needs in the way of albumen can be satisfied by any one of the following:

Beefsteak	1½ ounces
Birds' meat	1½ ounces
Salted tongue	2 ounces
Milk	2 quarts
Cheese	9 ounces
Eggs	9 ounces
Chicken	9 ounces
Almonds	5½ ounces
Lentils	5½ ounces
Peas	5½ ounces
Beans	5½ ounces
Whole wheat bread	1½ ounces

Compure With Meat.

It is full and another when it is empty. A sword bag, a bag or spor bag, a dispatch bag, or the box containing some precious piece of porcelain or lacquer, must each be tied in a certain way. The ill bred person classes himself with the foreigner by knowing such tokens of custom, and an object tied in a slovenly manner may not only lead to the sender's disgrace, but it may carry with it a deadly insult.—*Carleton's Weekly.*

[illegible]

The Japanese have hundreds of books made necessary by the ornamental use of wood. Some are as old as the time when history was recorded by a series of knots just as it was in China and there are dozens of knots in common use and certainly strange, and these are child can tie.

In one educational museum of Japan is a great frame of the most beautiful knot tied in silver and gold threads. This knot formed a list of Japanese nobility at a certain world's fair. For six months this wonderful collection hung upon the wall and only one visitor had noticed and injured about it. Even these months the knot was to be seen.

## NEWSY NOTES OF NEARBY TOWNS

### Tomahawk—

A deal, which has been under way for some time, has nearly been completed whereby the Geo. D. Taylor & Sons company of St. Paul will purchase the plant of the Tomahawk Stave & Heading company and which will be reopened for manufacturing purposes as soon as the equipment can be put back into shape. This will be welcome news to all and will mean that there will be no more idle property in the city.

### Florence—

Mining operations were suspended at the Florence mine Tuesday due to orders received from New York. This suspension is on account of the large stock pile of ore and the vessel situation. This is not on the case of the Florence Iron Co. but with many others on the range. The company, with deep regret, laid off 20 men, but most of these men found employment on the construction work of the new dam being built by the Peninsular Power Co., three miles north of this city on the Brule river. The Ernst mine will continue to work the both shifts but ore will only be hoisted on the one shift.

### Ashland—

Although so badly frightened and so weak from exposure and hunger that he could not speak when found, a year-old Michael Janco, lost in the woods from Monday afternoon until Thursday afternoon near Ashland, will recover. He was brought to a local hospital after treatment at the home of Joseph Joblonsky, whose 8-year-old son, John, discovered the missing "babe" in the woods. The child had sucked his fingers and they had been wet and cold so long that they were shrunk and arms were scratched and bleeding from his forcing his way thru the brush. He was found more than four miles from where he was last seen, and appeared to have walked many times that distance in a circuitous route. When discovered he acted like a wild animal in attempting to conceal himself behind some bushes, apparently thinking the searchers might hurt him.

### Ironwood—

Officials of companies operating iron ore mines in the Lake Superior country will soon turn their attention to the development of low grade properties, as the time is not far distant when low grade ores will be in better demand than they have ever been before. Federal officials recently announced that new

experiment stations are to be established to try and find methods of conserving the ore supply of the Lake Superior district. The Oliver Iron Mining company is one of the few companies operating in this district that has been successfully using the low grade ores. This has been made possible by its washing process, introduced some years ago on the Mesaba range. The company spent nearly \$200,000 in experiments before the desired results were obtained at Coleraine, and it is still spending money to improve the methods. The process has been a complete success in the Western Mesaba district. A large part of the low grade ore produced there is used by mixing it with the higher grades.

### New London—

A car loaded with explosives was derailed on a side track at New London Junction. It stood for a day before a wrecking crew could come to right it again and people residing in that locality and the traveling public kept at a safe distance while it was there. The large placards nailed on the car were sufficient to keep the crowds away and then some went so far as to imagine that possibly the derailling of the car was the beginning of a plot to blow up that part of this city. The wrecking crew came finally and placed the car on the rails. While the car was in the air it was swung straight with the rails there was a slight slip. It was all that was needed to put fright into the spectators and a near panic was witnessed in the get away. All is now quiet again and the car with its death dealings cargo has gone on its way.

### Gladstone—

Sliding from a load of hay after throwing a pitchfork to the ground George McLeod, aged 40, a farmer residing near Harris, late Wednesday afternoon suffered injuries that caused his death about four o'clock Friday morning. He died at an Escanaba hospital. McLeod's stomach was punctured by the pitchfork handle when he slid to the ground. He was badly torn internally and lost such a large amount of blood that death was inevitable. He is survived by a wife and three children.

### EXPERIENCE THE BEST TEACHER

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take. All Dealers.

### METHODIST EPISCOPAL

S. S. at 10 o'clock prompt. Men's class at same hour. All men are invited to attend this class. Morning worship at 11 o'clock, when the pastor will speak on "Immovable Anchors." Epworth League at 6:45 to be conducted by Miss Bernice Zutz. Evening service at 7:30. Subject "A Man's Choice." Prayer meeting on Thursday eve at 7:30.

You are cordially invited to attend these services. Come in crowds. Remember, the power of good example is a heritage that makes itself felt after many generations.

Whoever means to count for much in doing good has no time to waste in youth. Evils must be fought until they are utterly destroyed. Faithfulness in any service for God is not overlooked by Him.

"She seems to be a natural flirt," he said.

"Natural?" the woman impatiently replied. "There's nothing natural about her but the framework."—Chicago Her-ald.

### Fighting Feet

One of the amazing truths that it has taken war to bring home to us is that an enormous number of Americans are so badly handicapped by weak or flat feet as to make them unfit for military service. In the navy, for instance, it is authoritatively stated that next to eye defects more applicants are turned down on account of weak feet than for any other single cause. Mind that these are men who wanted the privilege of entering the government service as a profession.

It may be safely assumed that even those rejected were far above the normal physically. They thought they were comparable to the fine physical specimens picked for the army and navy. How many thousands there must be who are kept from what they would ordinarily like to do by defects known to themselves!

Weak or flat feet are entirely preventable and in the vast majority of instances they are entirely curable by simple measures. No barefoot race is ever weak footed. Savages may be normally flat footed, but this doesn't matter if the foot is strong and free from pain on prolonged use.

Obviously, when so large a proportion of shoe wearing people have weak feet, there must be something radically wrong with shoes. The fault, in many instances, lies in the lack of balance. The foot is thrown somewhat out of proper position and the result is a gradual stretching and breaking down of muscles and ligaments which shouldn't be stretched as they are. High, tightly laced shoes restrict normal motion and restricted motion result in a weakening of muscles and a gradual breaking down of the arches.

Parents should be ready to fight shoe manufacturers and salesmen, if necessary, to get proper shoes for their children. Usually, however it is difficult for the shoeman to furnish proper shoes, not because he isn't willing to, but because there are so many fool parents and other people that he is able to sell only the fool shapes.

If lack of exercise causes weakness, proper exercises should produce strength. They will. I have prepared a longer article on prevention and cure of moderate cases of weak feet which I will forward to any interested Wisconsin citizen on receipt of stamped two-cent (2c) and self-addressed envelope.

### THE BEST TEST

Is the Test of Time  
 Years ago this Rhinelander resident told of good results from using Doan's Kidney Pills. Now S. D. Nelson, grocer, of 204 E. King St., confirms the former statement—says there has been no return of the trouble. Can Rhinelander people ask for more convincing testimony? Mr. Nelson, says: "I had pains in the small of my back, which were caused by weak kidneys. It was hard for me to stoop or lift and I couldn't bring any strain on my back. Several boxes of Doan's Kidney Pills rid me of these ailments."

A PERMANENT CURE  
 OVER TWO YEARS LATER Mr. Nelson said: "I am pleased to say that the cure Doan's Kidney Pills made has been permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Nelson has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Miss Stella Landquist left for her home in Marshfield Saturday after a two weeks visit with relatives here.

### LAW SUPPLEMENTS

The New North has a limited number of the 1917 Law Supplements, containing all the new laws enacted by the last legislature. While the supply lasts one of those supplements will be given to any adult who calls for same at this office.

### RURAL SCHOOL TEACHERS

The County Training School is maintained at Rhinelander for the express purpose of bettering the rural schools. This is accomplished largely by assisting the teachers who are teaching them. This school is open Saturday forenoons for their special benefit. Come and get acquainted with us. Let us help you with your difficult problems whatever they may be. If you cannot get here in the forenoon, let us know and we will arrange to meet you at other times. We want to serve you.  
 M. V. BOYCE, Prin.

THE GOOD JUDGE AT A RALLY

THE Call to the Colors calls for thrift and common sense by everybody. A 10c. pouch of W-B Cut Chewing goes twice as far as 10c.'s worth of ordinary tobacco. That's the big point: W-B Cut isn't ordinary tobacco, it's rich tobacco and a lasting chew.

Made by WEYMAN-BRUTON COMPANY, 1107 Broadway, New York City

## TO REGISTER ALL BIRTHS

Madison, Sept. 17.—Tests as to the completeness of birth registration in Wisconsin will be conducted by federal investigators before the year is over. Upon the result will depend Wisconsin's admission to the birth registration area, established in 1915 and now, with the recent admission of Maryland, Virginia and Kentucky, embracing thirteen states and the District of Columbia.

In one county the neglect of physicians and midwives to record birth certificates has become so widespread and has lowered the county's birth rate to such an extent that unless there is early reform prosecutions will be begun after Oct. 1. Proof of wilful failure to file in other localities in the state also will result in arrests.

The importance of birth registration is enhanced by the war. Every day the Wisconsin state board of health has been asked for affidavits of birth registry by many young men on the border line of the draft, and by persons close to the age required for permits under the child labor law. The census registers of deeds are being besieged in the same way. The census bureau knows of one physician who became so aroused to the desirability of recording births that he reported to the local registrar 450 births which had occurred in his practice since 1900.

"The time is now past," said Dr. C. A. Harper, state registrar, "to accept any excuse of failure to record the facts according to law. The courts must be the arbiters in all such cases hereafter."

## GAGEN

Mr. and Mrs. L. A. Anderson of Rhinelander visited in the village Tuesday evening.  
Mrs. Julia Humphner was in the village Monday, the guest of Mrs. Lout.  
Mrs. P. White of Great Falls, Montana, is the guest of her sister Mrs. R. C. Luedke.  
Miss Amanda McCutcheon spent Saturday and Sunday with her parents at Long Lake.  
H. F. Purdy and F. H. Piehl motored to Rhinelander Friday evening.  
Mrs. Riddles of Iron Mountain, Mich., and Mr. and Mrs. Fischer of Watersmeet were the guests of Mrs. F. Chris several days this week.  
Mr. and Mrs. J. Miller and family spent a few days at the Crooked Lake farm.  
Frank Blumrich was a Starks caller Sunday.

H. D. Johnston went to Rhinelander Tuesday.  
F. Chris left for Watersmeet Tuesday.  
Potato digging has started in earnest and the farmers report a fair crop.  
Mrs. H. D. Johnston left last week for Milwaukee and other points in the southern part of the state.

## NEW SOO DOCK FINISHED

The new concrete ore dock of the Soo line at Ashland is completed. It is claimed that the new dock is the finest at the head of the lakes having been constructed at a cost of over \$2,000,000 and after many months of constant work. The dock is 900 feet long and 81 feet wide and represents 30,000 cubic yards of concrete. On each side are 75 ore pockets, each with a capacity of 350 tons or seven carloads of ore. The dock is practically automatic, being completely operated by electricity.

## NORTH SIDE

Mrs. John Pecor entertained the Wednesday club at her home on West Phillip street. Mrs. C. Bouf. won first, Mrs. J. Pecor second and Mrs. I. Duffrain third prize.  
Mrs. A. White and family and Miss Maudie Rothwell motored to Harshaw Sunday.  
Mr. and Mrs. George Nichols and baby returned Monday from Kaukauna.  
Miss Hilda Moberg left Monday for Stevens Point where she will resume her studies at the normal.  
Frank Snyder returned Wednesday last from Minneapolis and Ladysmith.  
Oneida Camp No. 1778 B. N. A. will give a card social at their hall on N. Stevens street Sept. 25. Every one welcome.  
Mrs. Otto Carlson spent the week end at Pelican Lake with Miss Mabel White.  
Miss Mabel White returned to her school Monday.  
Don't forget the harvest sale given by the Catholic ladies Saturday Sept. 22, on Davenport street.  
Mrs. Tom Nixon and Mrs. Wm. Pecor spent Saturday at Tripoli; they returned by auto.  
Miss Inez Mase left Sunday for Whitewater normal where she will finish her course.  
Miss Catherine McLaughlin who teaches in the Jennings school, spent Sunday in the city.  
Mrs. Carl Hanson entertained a number of friends at her home on Mason street Wednesday last.  
Mrs. L. Bassett was surprised at the home of her mother, Mrs. A. Kriesel on Thayer street. Cards were played, refreshments were served and all report a good time.  
The many friends of Mrs. Zita Smith pleasantly surprised her at her home on Mason street. Refreshments were served and all report a pleasant time.  
Miss Mildred Franklin left Sunday for Superior where she will finish her course at the normal.  
Mrs. Steve Gwilt left Saturday for Wausau and Stevens Point where she will visit.  
Mrs. Al Heins left Monday morning for Tomahawk. She went to attend the McLaughlin and Heins nuptials.  
Miss Myrtle Lund left Monday for Whitewater where she will attend the normal the coming year.  
Miss Ida Robinson left Sunday for Superior where she will attend the normal the coming year.  
Snowflake Rebekah Lodge No. 51 will entertain at a card social at their hall on Stevens street Friday Sept. 28. Everybody welcome.  
Little Lorraine Shelp entertained a number of her little friends on Wednesday afternoon in honor of her birthday.  
Miss Mabel Rheume left Tuesday for Barron where she will be the guest of Miss Mabel Sanns.  
Miss Phoebe Carwinski of Rismark, N. D., is a guest at the A. Rosemark home.  
Mr. and Mrs. Ed. Pantler of Wells, Mich., are the guests of friends in the city.

## RESOLUTIONS

Whereas, this nation is now involved in the greatest war in its history and emergency has compelled us to draft our young men for service in Europe.  
Resolved, that the Grange evinces its loyalty to the nation by supporting this draft and by giving the best of its farm young men for this service bud.  
Whereas, there are certain business interests in this nation who have increased their profits immensely through sales resulting from this war and from the needs and necessities of the people of the world brought about by this war and have piled up immense profits.  
Therefore be it resolved that in behalf of the people we demand that the government shall conscript wealth as well as men and compel these business interests to contribute at least 80% of these excess profits toward the cost of this war.  
Be it further resolved that we endorse the attitude of Brother Senator LaFollette and Senator Hustling of Wisconsin and Speaker Clark and all other representatives of the people in their fight for the conscription of wealth as well as men.  
Unanimously adopted by  
Forest Co. Pomona Grange.  
Sec. Mrs. Sarah Kirkpatrick.  
Western Pomona Grange.  
Sec. Mrs. Edith C. Rick.

## SOME OTHER DAY PRICES

Interesting is the story of living prices here at home in Rusk told by files of the News-Budget. Otis & Co. at Apollonia were selling 7 foot cross cut saws for \$1.75, children's winter underwear for 10 cents a garment, blankets for 50c a pair and up.  
But they also sold pigs for \$1.00 up to \$3.00. Creamery butter sold in Chicago for 12c @ 12c; eggs were 13c. Hogs were \$3.75 to \$4.25 in Milwaukee; heavy steers, top notchers brought \$3.90 to \$4.10 while fat cows sold for \$2.35 and canners down to \$1.75. Think of lamb at \$3.75 to \$4.50?  
Ten years ago, Sept. 1, 1907, wheat was 22c, corn 20 3/4, oats 19, lard \$1.72 cwt. Potatoes were 51c @ 56c a bushel.  
But a "dollar a day was mighty good pay, for the hard working man," in those days and wages have not increased in proportion to the increased cost of living in Ladysmith. — Ladysmith News-Budget.

## PARTY FOR REV. BEAUDETTE

The altar boys of St. Mary's church entertained at a lawn fete Monday night at the parsonage in honor of Father W. A. Beaudette, who leaves in about a month to begin his services as army chaplain.

# Money To Farmers

Do you need money this fall to improve your farm buildings?

Do you want to pay up your old mortgage and obtain additional money?

Are you tired of waiting for money promised from other sources?

We are making loans every day and can examine your place promptly. We make long time loans without charge for commissions, appraisal, examination of title or drawing papers.

When you come in to town stop at our office and talk things over, or if you are not coming write us a letter.

## JAPANESE KNOTS.

They Have a Language of Their Own, and Their Making Is an Art.

The Japanese have no use for buttons, buckles or hooks and eyes. Cord serves every purpose of fastening and furnishes artistic possibilities seemingly without end.

The Japanese have hundreds of knots, made necessary by the ornamental use of cord. Some are as old as the time when history was recorded by a series of knots, just as it was in China and Peru before writing was invented. There are dozens of knots in common and ceremonial usage, and these every child can tie.

In one educational museum of Japan is a great frame of the most beautiful knots, tied in silken and gold thread. This had formed a part of Japan's exhibit at a certain world's fair. For six months this wonderful collection had hung upon the wall and only two visitors had noticed and inquired about it. Even these thought the knots must be industrial samples intended for dress trimmings. No one offered to buy the unique exhibit, no museum begged for it, and the wonderful knots were taken home again.

There is an appeal to the imagination even in the knots intended for common use. There are plum blossom, cherry blossom, iris, chrysanthemum and pine tree knots. There are Fujiyama knots, turtle and stork knots, the "old man's," which is easy to tie, and the "old woman's," also.

There is only one way of knotting a cord when sending a New Year's or birthday gift and another for doing up a funeral offering. There is one way to tie the brocade bag of the tea jar when it is full and another when it is empty. A sword bag, a flag or spear bag, a dispatch bag, or the box containing some precious piece of porcelain or lacquer, must each be tied in a certain way.

The ill bred person classes himself with the foreigner by knowing such niceties of custom, and an object tied in a slovenly manner may not only bear witness to the sender's ignorance, but it may carry with it a deadly insult.—Pearson's Weekly.

## THE ALBUMEN WE NEED.

Foodstuffs That Produce It and How They Compare With Meat.

"Why do we eat meat?" asks Dr. Daniel Claude in an article in Nature, and he answers his question by saying, "First to supply the albumen necessary to our bodies, then because meat is a pleasant food, easily digested and assimilated."

Many physiologists have estimated the quantity of albumen necessary to our systems and have given widely differing figures, but today it is generally held that one grain per day per kilogram of body weight is ample—that is to say, that a man weighing 160 pounds actually needs only between five and six ounces of albumen a day. Children and growing youths need more. Meat, however, is not the only food that is rich in albumen. A quarter of a Brie cheese, for instance, contains as much albumen as half a pound of beefsteak. Lentils, peas and beans are from 20 to 25 per cent albumen, which means that these vegetables are worth actually more than steak and cost far less.

According to Dr. Claude, our daily needs in the way of albumen can be satisfied by any one of the following:

Beefsteak	.....14 ounces
Cullets	.....15 ounces
Salted tongue	.....14 ounces
Milk	.....2 quarts
Chicken	.....20 ounces
Eggs	.....3 ounces
Cheese	.....5 ounces
Almonds	.....25 ounces
Haricot beans	.....14 ounces
Lentils	.....14 ounces
Beans	.....20 ounces

From these it is easy to make a selection, picking those that cost the least.

## Waifara in the Air.

A high powered airplane engine of the best type say 120 to 150 horse power—cannot be purchased for much less than \$3000. And the whole airplane, a big one, may really cost \$10,000 to \$20,000.

A fast modern airplane has an average life of only about two or three hundred hours of active service—say two months at the outside. This means that to keep 1000 airplanes on a battle line you have to be able to build 2000 per month or more. The cost would be almost multi-million. That is why warfare in the air for any length of time would bankrupt the world. And that in turn it why warfare in the air means the end of all warfare.—Collier's.

## No Chasing.

A young man visited a jeweler's and asked to look at some wedding rings. He selected a very handsome ring, and the jeweler said:

"That ring is dearer than the others. You shall have to charge \$10 extra for that one on account of the chasing."

The young man said:

"You don't have to chase me, mister," he said coldly. "I pay cash."

## Don't Get Dared.

Don't let yourself get into the habit of taking a dash. It isn't worth while. When you feel it coming on, plunge at once into some task that will take all your time and energy. It is better to get away from such things than to let them intimidate you. Exchange.

## With the Six Flavor.

Friend—What kind of car did you buy? Retired Sam replied—Well, she drives about fifty feet of dust and discharges half my bank account.—Life.

## Catty.

Miss Sharpe—She's her own chaperon.

Greene—How's that?

"You ought to see her face."—London Answers.

## Package Foods Are More Sanitary

(Copyright—Mallory, Mitchell & Faust)

Sanitary food products are put up in packages by the manufacturer.

Only by buying in the package can the consumer be assured that the product is sanitary. Bulk goods offer too many opportunities for contamination by dirty hands, dust, mice and other vermin.

As a consequence, today is witnessing the passing of the butter tub, the lard tub, the dried fruit bin, the cracker barrel and the tea and coffee bin. Today we buy all these and many other products formerly sold in bulk, neatly done up in attractive and sanitary packages, fully protected against any chance of contamination until they are opened by the housewife in her own kitchen.

Advertising is largely responsible for the development of the package idea. When a manufacturer made a good product, he wanted to tell people about it so they would buy his product in preference to some other competing brand.

This required that he identify his product in some specific way so the consumer would know it was his. This led to the marketing of the product in a package or container bearing a distinctive label.

When you buy STANDARD ADVERTISED package foods, you buy sanitary foods.

## Advertising Protects the Consumer

(Copyright—Mallory, Mitchell & Faust)

When you buy an advertised brand of any food product you are protected against under-weight, short measure, misrepresentation and over-charge.

For the manufacturer has, through advertising, standardized his product. Every package is the same in size, weight, quality and price as every other package bearing that label.

You are thus protected against the practices of unscrupulous dealers, for advertised goods are standard. They are the same wherever they are found, in the big store or the little store, the downtown store or the suburban store, the city store or the country store.

By placing his trade-mark or brand name on the package, the manufacturer identifies his product and thus assumes responsibility for the quality and for correct weight and measure. By so doing he stakes his reputation upon the product and therefore MUST give satisfaction with every package.

You get STANDARD VALUE when you buy STANDARD ADVERTISED GOODS.

## Advertising Makes For Lower Prices

(Copyright—Mallory, Mitchell & Faust)

Among the many forces tending to raise the cost of living, it is encouraging to find one other whose tendency is in the opposite direction.

Advertising is the friend of the consumer. It tends to lower prices. It does this in two ways. By leading to greater volume of sales it makes possible the economies of large scale production, resulting in a lower cost of production per unit.

The second way is by reducing the costs of distribution. A large element in the total cost of most products is the cost of getting them from the factory out into the hands of the final consumer.

Just what items the costs of distribution include depends upon the method of distribution; but in general most products pass through the hands of the jobber and then through the retailer to the consumer. This path from the manufacturer to the consumer might be called the channel of distribution.

The effect of advertising is to lessen the resistance to the flow of the product through this channel. That is, the advertising enables both the jobber and the retailer to sell the goods more easily and quickly and in larger quantities and to turn their stocks off faster, resulting in lower costs of selling.

This all works to the best interests of the consumer—a lower retail price.

## AN ANTIQUE PHRASE.

The "Are and of Right Ought to Be" Used in the Declaration.

Has it ever occurred to you that one of the unimproving sentences or phrases which Thomas Jefferson wrote into the Declaration really is a veritable antique?

Professor William A. Dunning of Columbia university about fifteen years ago pointed out that the phrase "Are and of right ought to be" has been used so often that he would not be surprised to find some Egyptologist discover its equivalent on an Egyptian temple.

He began tracing the phrase and first found Swift had used something like it in referring to the Church of Ireland.

Of course Richard Henry Lee had used it before Jefferson in his resolution in congress June 7, 1776.

But before Dean Swift had applied it the bill of rights which placed William and Mary on the British throne said of them that they "did become, were, are and of right ought to be by laws of this realm our sovereign lord and lady."

That did not satisfy Professor Dunning, and he started back through the middle ages and found in 1200 Pope Boniface VIII. used a similar sentence with King Philip the Fair of France.

It appears that Philip had some notion of independence, and the pope gave him to understand that "the French of right are and ought to be subject to the Roman king and the emperor."

Of course this went, and Philip continued to be fair haired, but not independent.—Philadelphia Ledger.

## LIGHT OF THE FIREFLY.

The Luminous Organ of the Insect and How It Operates.

A study of the luminescence of the firefly, and especially of the chemical elements involved, by F. Alex McDermott has brought forward several very interesting points.

So far as is known, two constant chemical factors, water and oxygen, are necessary for the production of light by living organisms. The third necessary factor, the substance oxidized, may be and probably is variable.

The luminous organ of the firefly consists of two layers of material under the outer transparent covering. The inner of these two layers consists mainly of guanine, a compound similar to uric acid, and this probably serves as a reflector. The outer layer consists of a mass of cells normally of a pale yellow color.

Both layers are penetrated by innumerable minute tracheae (ducts), which unite in the interior of the insect to form larger passages and run together in the outer layer of yellow cells, forming a network somewhat resembling the finer veiling of a leaf.

It is practically certain that in life these passages are filled with air, and it seems probable that the photogenic process is accompanied by the evolution of carbon dioxide and the consumption of oxygen of the air.—Brooklyn Eagle.

## When the Worm Turns.

The human element in the great mass of the populace, in sharp contrast with the humanity of the dark forces arrayed against it—underlies all that happened during the revolution in Russia. Bureaucracy failed in its last desperate stand for prerogative and privilege because it underrated the ability of the average Russian—believed to be dulled by years of oppression—to ultimately decide between right and wrong. Pushed to the limit by deception and disloyalty in a grave hour of national peril, the worm turned and carried all before him. Apply this elemental fact to what transpired in Russia and everything stands revealed.—Isaac F. Marcossian in Everybody's.

## Left Only the Stubble.

The ancient Egyptians reaped their grain close to the ear and afterward cut the straw close to the ground and laid it by. It was this straw that Pharaoh refused to give to the Israelites. It was because of this refusal to give the longer straw to the Israelites that they were compelled to gather "stubble." This was a matter of considerable difficulty, seeing that the straw itself had been cut off near to the ground.

## Little to Practice On.

He—My understanding before our marriage was that you were to be content with what we had. She—Doubtless. But so far as I have been able to observe about all we have had to be contented with has been a large stock of contentment.—Richmond Times-Dispatch.

## Slight Soreness.

"Was there any soreness after the doctor vaccinated you?"

"A trifle. I thought he charged me entirely too much."—Louisville Courier-Journal.

## A Fool and His Tongue.

When Demaratus was asked whether he held his tongue because he was a fool or for want of words he replied, "A fool cannot hold his tongue."—Pittsburgh.

## Same Thing.

"You say she always wears a touch-me-not air?"

"No; but it's always a case of 'fresh paint.'"—Kansas City Journal.

## High Praise.

Friend—Have you got a good lawyer? Prisoner—The very best. Honest, Bill, he ought been a burglar.—Life.

According to the proverb, the best things are the most difficult.—Pittsburgh.

# I Recommend Peruna To All Sufferers Of Catarrh—

I Do Not Think I Ever Felt Much Better

Mrs. William H. Hinchliffe, No. 20

## PERSONAL AND SOCIAL

Mrs. Ed. Strike is home from a visit in Wausau.

Mrs. W. L. Covey was here from Wausau during the week.

Mrs. A. C. Blitch is numbered among the sick.

Mr. and Mrs. F. D. Hoover and little son have returned from a visit in Merrill.

W. Fex and son were in this county the last week inspecting lands. They are from Grand Mound Iowa.

WANTED to buy, large wood heating stove. Please state price in first letter. Address W. T., New North.

A son arrived Friday at the home of Mr. and Mrs. R. Van Houten.

Miss Margaret Shelton has returned to South Carolina to continue teaching in Landor College.

Miss Iona McDermott and brother, Arthur, left last Thursday night for Detroit.

Mrs. Val Eschwig was taken to the hospital at Chippewa Falls last week. She is in a critical condition from a stroke of paralysis.

Miss Clara Toft of Barron was honor guest at a party Friday evening given by Mrs. Osborne Anderson.

We sell our good cut-over farm lands near Rhinelander at \$10 per acre on our half crop payment plan. Guaranteed Investment Co. Eau Claire, Wis.

Have you weak lungs? Do colds settle on your chest or in your bronchial tubes? Do coughs hang on? Do you have throat troubles? You should certainly take Scott's Emulsion of pure cod liver oil which peculiarly strengthens the quality of the blood while the glycerine in Scott's soothes and heals the tender membranes of the throat and lungs. Scott's is prescribed by the best specialists. Get it at any drug store. Scott & Bowne, Bloomfield, N. J.

# WRIGLEY'S

The goody that is beneficial to teeth and stomach is best for children.

Wrigley's is Helpful

to all ages. It massages and strengthens the gums, keeps teeth clean and breath sweet, aids appetite and digestion.

The Flavor Lasts

M. Wenner visited his family in Gladstone last week.

Mrs. Mercer of Minocqua was a Rhinelander visitor Monday.

Miss Gina Kongslein, who underwent an operation for appendicitis last week, will arrive home this week from the Green Bay hospital. Her recovery has been rapid.

Mr. and Mrs. H. J. Willis have returned to Gladstone after making their home here for some time past.

FOR SALE—Several buggies. Enquire at Palace Livery.

Paul Withey of Chippewa Falls and a party of St. Paul friends passed through Rhinelander Monday in a Pierce-Arrow car enroute home from a month spent in the Vilas county woods.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one good disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Prepared by J. C. HENNEY & CO., Toledo, O. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Miss Frances Ohlson of Eagle River visited friends here last week.

F. R. Stone of the gents furnishing firm, Markham & Stone of Rhine Janitor paid the Review office a brief call while in town Tuesday, his parents being life long friends and neighbors of the older members of the Review household—Eagle River Review.

The Segerstrom, Meekma and A. C. Danielson cars made a trip to Grandon Sunday.

The Vilas County Fair is being held in Eagle River today and a number of Rhinelander people are in attendance. A good fair has been planned and only decent weather is required to realize expectations.

This evening the Hazel Crawford orchestra will furnish music for a dance in Eagle River to be given at the conclusion of the Vilas Co. Fair.

Mrs. Maude Stenchen and daughters, Beulah and Clare, and Mr. and Mrs. Neal Slocum motored here from New Auburn Sunday and were guests at the J. D. Fritz home. Mrs. Slocum remained here while the remainder of the party autored to Rhinelander for a few days' visit with relatives.—Ladysmith Journal

Miss Ruth Raymond, has resumed her studies at Milwaukee Downer.

Miss May McDonald who spent the summer in this city and with her brother, Angus, in Three Lakes, has returned to Chicago to resume teaching.

George Tarbox of Covington, Ky., was a visitor in Oneida county this week looking over lands with the intention of buying a farm. He found a tract owned by C. P. Crosby, which suited him nicely and the deal will be closed next month. Mr. Tarbox says that Mr. Crosby is one of the best boosters Oneida county has.

## FARM For Sale

In Town of Sugar Camp, 13 miles northeast of Rhinelander, 80 acres, 15 acres cleared and 5 acres stumped—House and barn, good spring near house. For further particulars see

Mr. or Mrs. John Beyer RHINELANDER, WIS.

WANTED—An edgerman and several mill men. Going wages and bonus. Write for particulars. Goodman Lumber Company, Goodman, Wis.

Caesar Carlson, son of August Carlson, the N. Brown street furniture dealer, left Tuesday for Great Lakes, Ill., where he has entered training for the navy. Caesar will go into the wireless service and after a few months will go to Harvard University to complete his course in this particular branch. Caesar passed his examination in Wausau last Thursday.

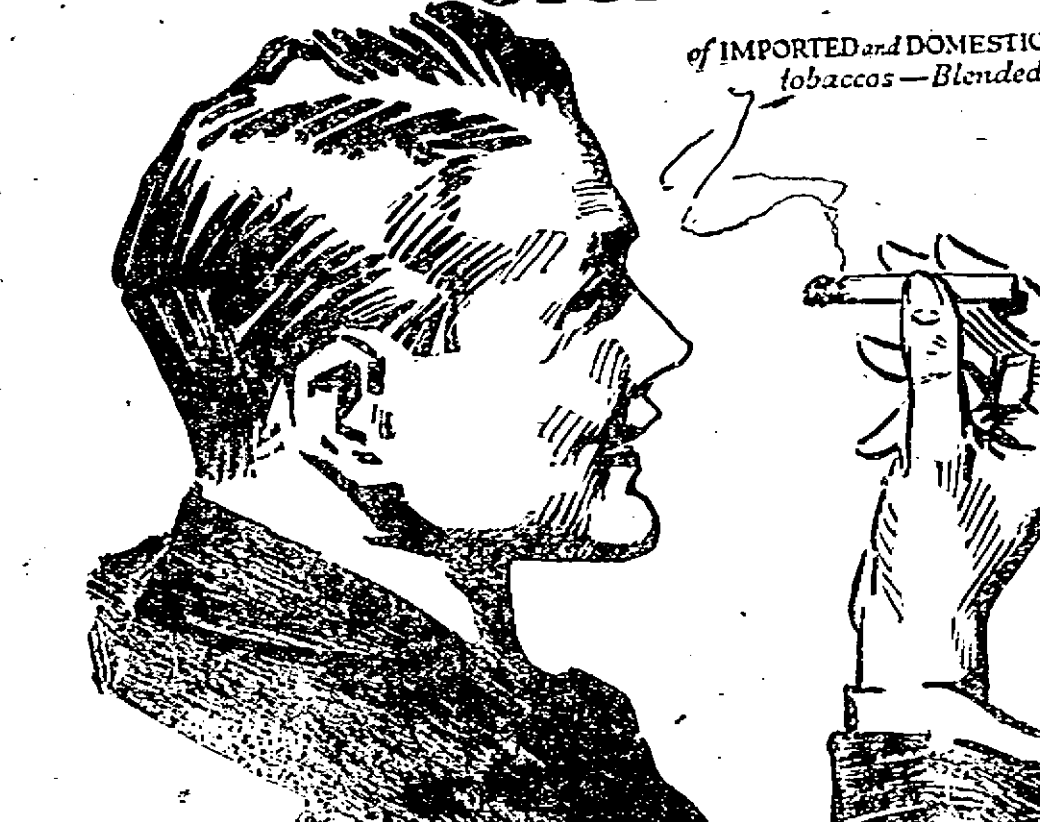

Windsor Blaisdell, who leaves soon for Kansas, will be succeeded as manager of the Cash & Carry Store by Ben Kurowski of Markham & Parker's store. Mr. Blaisdell has made a great success of the Cash & Carry since its opening last spring. With Mr. Kurowski in charge the business will continue in competent hands.

A boy wishes to work for his board, so that he can attend the Rhinelander High school. Any man who wishes a good live boy, apply at the New North office.

JOINS ARMY IN MONTH

News from Washington reached Father W. A. Beaudette Monday that he would be called to the army in about one month. It was at first supposed that Father Beaudette would leave this week. Instead of being assigned to the new National Army he is transferred to the Regulars which probably accounts for the apparent delay. A farewell reception arranged for last Wednesday evening was accordingly postponed to some future date immediately preceding his departure.

# Chesterfield CIGARETTES

A new combination—Mild, yet they "Satisfy"!

Yes, this new cigarette is more than just good tasting, it delivers a new and important thing to smokers—

Chesterfields "reach home," they let you know you are smoking—they "Satisfy"!

Yet, they're Mild!

Don't be surprised—the new blend of Imported and Domestic tobaccos does it. And the blend can't be copied.

Let Chesterfields give you new cigarette enjoyment.

Leggett & Howard Tobacco Co.

They "Satisfy"!—and yet they're Mild!

20 for 10¢

## PEOPLE SPEAK WELL OF CHAMBERLAIN'S TABLETS

"I have been selling Chamberlain's Tablets for about two years and heard such good reports from my customers that I concluded to give them a trial myself, and can say that I do not believe there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont. If you are troubled with indigestion or constipation give them a trial. They will do you good. All Dealers.

## RUMMAGE SALE

The Ladies Aid of the Congregational church will hold its annual rummage sale on Friday and Saturday, October, 19 and 20. \$13.20

## KREMB'S LOSES PENS

A drug store in Stevens Point owned by Alex Krembs, who many years ago was prescription clerk at the Reardon pharmacy in this city, was burglarized one night recently of \$700 worth of fountain pens. Several business places in Stevens Points have been broken into of late.

## GETS OFF EASY

A green deer hide was found in the possession of Casper Galinek, a settler near Three Lakes, by Henry Oberholzer, conservation warden. Warden Oberholzer arrested the man and brought him to this city. Galinek admitted his guilt in municipal court and Judge C. F. Smith fined him \$75 and costs. The fine was suspended.

## LAW SUPPLEMENTS

The New North has a limited number of the 1917 Law Supplements, containing all the new law enacted by the last legislature. While the supply lasts, one of these supplements will be given to any adult who calls for same at this office.

To school boards wishing teachers, kindly let me hear from you once. To teachers wishing positions, you also notify me, so that I can help both sides.

F. A. LOWELL, County Superintendent.

Cut rates on household goods to Pacific coast and other points. Superior service at reduced rate. The Boyd Transfer Co. Minneapolis, Minn.

## Report of the Condition of the MERCHANTS STATE BANK

# THE NEW NORTH

The New North Printing Co.  
Entered at the Postoffice at Rhinelander, Wis., as Second Class  
Mail Matter  
SEPTEMBER 20, 1917

"For the cause that lacks assistance;  
For the wrong that needs resistance;  
For the future in the distance  
And the good that we can do."

The granges at Grandon last week endorsed the work of Wisconsin's Senior Senator in congress for his untiring efforts to have a reasonable share of the war profits assessed to pay the cost of the war.

## GERMANS CAN HELP

In the Germania Herald of Milwaukee a significant editorial appeared Sunday. Asserting the undivided loyalty to this country of its citizens of German birth, the editor asks this question: "Can not the man of German blood render a service even to the country which is still dear to his heart by the very fulfillment of his duty as an American citizen?"

The editor answers emphatically yes. Pointing out that "America alone can and will be the decisive factor" in this war and that only in Germany this truth is not realized, he writes: "They do not know in Germany the inexhaustible resources of America; they do not know in Germany the indomitable will of our country to conquer. They perceive merely that so far we have progressed slowly, but they forget the fact that the United States was utterly unprepared. Yet sufficient support can and will be given the entente powers for a preliminary check—to hold out till America's armies of millions reach Europe's soil and gain the victory. To bring this to the consciousness of the German people the German-American may lend his aid. Furthermore, he may impress upon the mind of the German people that they may have an honorable peace as soon as they will themselves take hold of matters in the German empire."

## SCHOOL TRANSPORTATION LAW

Opening of the rural schools of the state has centered attention on a new law passed at the last session of the legislature which greatly extends the scope of the old statute providing pay for transporting children to school. The state superintendent of schools has issued the following statement on the subject: "Transportation must be provided for at least six months, and no district will be permitted to draw aid for the transportation of children unless each child for whom aid is demanded attends school while being transported regularly for at least five months. The state will pay ten cents a day toward the transporting of children that are conveyed more than two and less than three miles; fifteen cents a day for children transported more than three and less than four miles; and twenty-five cents a day for children transported more than four miles.

"An important provision is to the effect that in the case of children who live more than four miles from any school, the school board of the district may in its discretion, in lieu of transportation, board the children under certain conditions and restrictions near the school. The state will pay aid for such children as the they were transported.

"In case the electors of a school district refuse to vote to instruct the board to transport children living more than two miles from school, the statute provides that the parents or guardians of such children may transport them to school, and that the district must pay the parent twenty cents a day for such child transported to school, provided the transportation was furnished and the child attended while being transported for at least five months. The state will reimburse the district ten cents for each child transported. This is an important feature.

"Heretofore the parent, no matter how far he might live from the school, could not secure transportation unless the electors of the district voted in favor of furnishing it. Under this law, if the electors are opposed to transportation, the parent can transport his children and the district must pay the amount fixed by statute for each child."

## THE FILIPINO STRIKES AS AN UNBEARABLE LAZY

The Filipino strikes as an unbearable lazy. He has had roads built for him, schools run for him, good government and peace secured to him and an unusual measure of confidence placed in him. He has graduated from almost no clothes into spotless white, with patent leather "kicks," a clean shirt and a resplendent tie, so that he looks like the swell member of a pair of black face comedians. He has had "sitting down" jobs created or discovered for him and has taken with remarkable alacrity to the cream soda habit, just like any other cultured being. He has learned to speak English very well and has been trained into a really good athlete. But, as far as I can see so far, he is not much changed since the days when he dawdled into school, followed by a servant to carry his books and ink bottle. I doubt very much whether he will work as hard or as intelligently to make something of himself and the islands as Uncle Sam has worked for him.—Christian Herald.

## Northcliffe's Test.

In Everybody's Magazine Isaac F. Marcesson furnishes a concrete incident which explains in a manner Lord Northcliffe's wonderful success as a journalist. It shows why Northcliffe and his ramified interests have forged ahead:

He once met a subeditor in the corridor of the London Mail building and asked him how he was getting along.

"Splendidly, thank you," was the reply.

"How long have you been with me?"

"Six months, my lord."

"What money are you getting?"

"Seven pounds a week."

"Are you happy and contented?"

"Yes, but I have lots of leisure."

"Then you are not the man for me. I don't want any member of my staff to be happy and contented on £7 a week."

He himself has never been content with man or machine when he could get a better one.

## Cadets of Switzerland.

Although no Swiss is legally liable for military service until the year in which he reaches the age of twenty, nevertheless a very large number of boys begin at the age of twelve to train as cadets and learn to carry and use rifles and to drill. These boys are supplied with their rifles by the government, but keep them at home and are responsible for having them always in proper condition. Should a rifle be found on inspection not to have been properly cleaned the boy's parents are liable to a heavy fine, and should this neglect occur a second time the boy may be punished by being dismissed from the cadet corps, this naturally being a disgrace from which every boy shrinks. These cadets all wear uniforms, which are supplied by the parents or, if the latter be in poor circumstances, then by the cadet corps association. Some of these Swiss cadets now have even light artillery.

## The Girl Who Fusses.

The fussy girl sat next us in the car this morning. And she fussed and she fussed and she fussed. She settled herself three times, hunched up her right shoulder, took off her right glove and patted her hair, pulled the back of her collar into shape, shrugged up her left shoulder, pulled off her left glove and patted her hair, pushed her hat a little more to one side and put on both gloves, patted her hair and crossed her right ankle over her left, squared both shoulders and patted her hair, settled herself in a new position and pulled her coat down at the waist, patted her hair, surveyed her nose in the tiny glass at the bottom of her bag and patted her hair, pulled her hat a wee bit more to one side and reversed her ankles, then began at the top of her program and repeated it.—Worcester Post.

## Her View of It.

A certain lady attempted to open an account at a department store. The store asked her for a reference, and she named Count's bank.

Count's bank, on being appealed to, replied that as a credit proposition the lady was an uncertain and even dangerous risk, and accordingly the department store wrote to her:

Madam—We regret to say your reference is unsatisfactory.

To this the lady wrote back:

You certainly surprise me. I always considered Count's bank a most respectable and solid institution.

—Philadelphia Bulletin.

## Virtue and Immortality.

Men passionately desire to live after death, but they often pass away without noting the fact that the memory of a really good person always lives. It is impressed upon the next generation and is transmitted again to the children. Is not that an immortality worth striving for?—Kropotkin.

## Grease on White Goods.

To remove cream spots from embroidered centerpieces or dollies dampen the spot with liquid ammonia, then lay a fresh piece of blotting paper over it and iron lightly. This treatment will remove any grease from white goods.

## You've Been There.

Invalid Down For a Rest Cure—Is this a restful place, boatman? Boatman—It used to be, sir, afore folks came 'ere to rest.—Philadelphia Ledger.

## The Hire the Higher.

Teacher—What is the difference between "I will hire a taxi and I have hired a taxi?" Kid—About \$6.50.—New Orleans Times-Democrat.

We would willingly have others perfect and yet amend not our own faults.—Thomas a Kempis.

## BREAKS WINDOW; GOES TO ASYLUM

Theodore Dion, an old resident of Rhinelander, put his cane through one of the plate glass windows in Judge H. F. Steele's office on Davenport street, Monday morning, with apparently no other reason than to go to the insane hospital.

Dion, who is in destitute circumstances, visited Judge Steele's office for the purpose of learning what could be done in regard to getting a commitment to the state asylum. It seemed the old man preferred the asylum rather than remain a county charge. Judge Steele gave him advice as to what course to take and Dion left the office. No sooner had he departed, however, when there was a sound of shattered glass. The old man had broken the window with his cane.

Dion succeeded in getting his wish and was committed to the asylum Tuesday.

## FIVE WEEKS IN HOSPITAL

Mr. and Mrs. Archie McCaughan, who went to eastern Canada five months ago for a visit with relatives and old friends have returned to Rhinelander. For five weeks while away Mr. McCaughan was ill in an Ottawa hospital, having undergone a serious operation. For a time his life hung in the balance and he lost all hope of ever seeing Rhinelander again. Since his discharge from the hospital he has been regaining his strength and expects to soon be enjoying good health.

Mr. McCaughan says the war strikes close to home in Canada and he saw large numbers of soldiers who had been sent back from the trenches permanently disabled.

## SHOE TRADE BRISK

Increasing business at the Herbst Shoe Store has caused a necessity for more shelf space. This has been accomplished by removing the partition in the rear of the store, which not only permits more room for stock but offers better facilities for waiting on trade.

K. B. Maxwell, manager of the Herbst Shoe Store, declares that patronage during the last summer has been beyond expectations and the outlook is bright for a brisk fall and winter trade. The high prices have had no tendency to lessen the demand for the best grades of foot wear.

## WATER WAGON HORSE DIES

Again ill fortune has paid a visit to the Crescent Springs water wagon. This morning one of the horses dropped dead in it tracks just west of the Davenport street bridge. Will the water wagon ever lose its Jonah?

## ONEIDA MAY WIN POTATO PRIZE

While the Oneida county booth at the state fair did not win first honors it ranked high among the best displays in the county building. The award for potatoes has not yet been announced but it is the opinion of many that Oneida county will be selected as first prize winner.

St. Croix county's booth secured first place and was given the silver cup presented by the Milwaukee Journal.

E. L. Luther, formerly agricultural agent for Oneida county and now superintendent of the county exhibits at the state fair, was presented with a beautiful chest of silver by the exhibitors.

## JOIN WACO ROTARY CLUB

Capt. F. H. Himes and Lieut. C. J. Wesley were recently made honorary members of the Waco, Tex., Rotary Club.

Company L entertained the Club at dinner, the regular soldier fare being provided.

## WOODSMAN DIES

James Heben, an old time woodsman, died Tuesday night in St. Mary's hospital following an extended illness.

Mr. Heben was 56 years of age. Nothing can be ascertained regarding his relatives. For many years past he has been employed in the northern Wisconsin lumber camps.

Charlie Belliel is back at his position at the Oneida after a two weeks illness, which nearly resulted in his farewell to this climate. Charlie said he had a tough seige and would prefer life in the trenches any time.

Miss Elizabeth Barber entertained the Northern Lights Club Tuesday evening.

Miss Gady's Yenor was the guest of relatives here this week.

George Hodgdon is the guest of his brother, Wayne, in Chicago.

Ben Torgeson is taking a vacation from his duties at Segersstrom's. Ben is a hard worker and deserves a rest.

Miss Hazel Crawford leaves Friday for a visit in Camp Douglas.

Ernest Willette goes to Camp Douglas Friday.

Mrs. L. Basset and family have returned to Minneapolis after a visit at the August Kriesel home.

Antone Hergren, a well known lumberman of northern Minnesota, is here visiting his brothers, Dennis and Edward Hergren.

Bagdad in Decay. Dirty, neglected and in decay, Bagdad retains scarcely a trace of the splendor which was hers in the days of good Haroun-al-Raschid. It was then on the western bank of the Tigris, and an old writer described it with pardonable exaggeration as being of all cities in the world the happiest and richest in gold. On the eastern bank was the suburb. But in the eleventh century the court was moved across the river, and the city and suburb changed relations. Today the old Bagdad is in ruins, and the city on the eastern bank sadly needs the improving touch of western civilization.—London Chronicle.

## A Picture of Pershing.

Our General Pershing has the physical and mental characteristics of a true product of our soil. He is as American as any Indian and might easily be taken for one. Looking on his tall, straight, athletic figure, his granite, imperturbable bronzed face, with its prairie born, perpetual "sun grin," its clefts and hollows like hill-side erosions, and the stark, stoic atmosphere that invests him, one is irresistibly reminded of one of the great chiefs of the red men. Old Geronimo had much the same look, even in captivity—the air of immeasurable superiority to circumstance.—Chicago News.

## "Sacred Branch."

Perhaps no emblem of yuletide is invested with so much of charm or religious significance as the "sacred branch" known as the mistletoe. With its curious habits and properties, its mystical symbolism, its quaint traditions, it is both weird and romantic. To the occultist, the mystic, the student of religions, it is a treasure-trove taking him far back on the tides of time, for all races, nations and faiths have their myths and philosophies corresponding to the cult of the mistletoe in ancient Brittany and based on the homage attributed to some mystical plant sacred to the deity in manifestation—the word made flesh.

## Four Spiders to the Pound.

The lizard spider (Mecus mygale) is the largest species of venomous spider known. He is of a bright yellow color with three red stripes on his back and a crescent of pure black on the abdomen. Full grown specimens of the lizard spider (so called because his chief food is small lizards, frogs, etc.) measure four inches across the back and have legs ten inches long. Four full grown males collected by a British exploring expedition weighed one pound four ounces. This giant of the spider family is a native of Ceylon.

# Why Do You Strive for Quality Products?

## Why Not Raise Ordinary Livestock, Ordinary Grain; or Ordinary Fruit?

It costs extra money to start and maintain a herd of blooded cattle, hogs or sheep.

It takes extra time and care to select quality seed corn as a basis for a quality crop.

It takes extra money, time and care to start and keep up a quality fruit orchard.

You could do away with this extra expense by being satisfied with just ordinary products. Why do you seek for quality?

Here is the reason: You pin your faith to quality because you know that the extra expense entailed by the effort for quality is more than offset by the extra profits that quality products return.

Quality is profitable in what you raise to sell. It is just as profitable in what you buy to use.

We have at your service a stock of highest quality farm implements. There is nothing of the ordinary in these implements. Their quality has been re-

cognized for years throughout the world.

If you were fully satisfied with raising ordinary products, we might deal in ordinary implements. Quality in what we had to sell would not attract you. But knowing that you appreciate the worth of quality, we are here to serve you with quality goods. You will find the quality of our stock and the quality of our service both profitable to you. And remember, you can see before you buy.

## THE CITY IN BRIEF

K. B. Maxwell was in Antigo Sunday.

Miss Helen Hore has returned to Northwestern University.

Mrs. A. Coyle is ill at her home 501 Pelican street.

Elmer Blaschka left Friday for northern Canada.

Mrs. James Larson of Eau Claire was the guest of Mr. and Mrs. L. Byrnes this week.

Julius Edwin is a Green Bay visitor today.

Mrs. Ed. Witter is home from Minneapolis where she attended the Minnesota state fair and was the guest for two weeks of Mrs. W. Green, who was formerly Miss Eva Mettayer of this city.

Mr. and Mrs. Kabel and children have returned from the state fair. They made the trip in their Hudson Super-six.

Mrs. John Reilly and Mrs. W. Cody returned Saturday to Fond du Lac after having spent several weeks in this city seeking relief from hay fever.

Miss Erickson of Tomahawk was the guest of Miss Nina Cairnes Sunday.

Miss Maxine Reed has commenced her second year at Milwaukee normal.

Miss Anna Miller has enrolled at the Milwaukee normal school.

Mrs. Brown and children of Wausau who were guests at the Baxter farm returned to their home Monday.

Mrs. F. E. Moore and daughter, Miss Elizabeth, left the forepart of the week for Milwaukee where Miss Elizabeth has enrolled at Downer.

Thomas Wight, who for several years has been employed at S. D. Nelson's grocery store, has resigned his position and will take up other work.

Peter Kurtzweil went to his camp near Monico Monday.

Harold Sarins, who has been visiting his sister and brother in Barron for the last two months, returned home Tuesday.

Miss Cora Ross has returned to the Oshkosh normal.

Mrs. Gil White and her sister, Mrs. Grant of Ladysmith, are the guests of Three Lakes relatives.

Miss Helen Stapleton will attend school the coming year in Dubuque, Iowa.

Misses Helen Noland, Mildred Franklin, Ida Robinson and Louise Strangstad departed Monday for the Superior normal.

Paul Schliesmann was in Antigo Sunday.

Miss Mildred Moore was home from Ladysmith over Sunday.

Miss Helen Krueger left Sunday to continue her course at Milwaukee normal.

H. C. Risley was a Minneapolis visitor this week.

Miss Ingeborg Lindgren, who spent the summer with her parents Mr. and Mrs. Axel Lindgren, has returned to the Milwaukee normal.

Miss Mabel White left for Milwaukee Sunday to reenter Downer.

Miss Lilah Kilden has resumed her studies at Milwaukee Downer.

J. O. W. Danielson, who is interested in the manufacture of a patent stump pulling machine at Bayfield, was home over Sunday.

Miss Margaret Gary left Tuesday for Milwaukee after spending the summer with her parents, Mr. and Mrs. S. B. Gary. She attends Downer.

John Jarvis was in attendance at the state fair last week.

Miss Marian Crosby has entered Beloit College.

Charles Larson has entered the employ of the Nichols Hardware company.

F. W. Meen's new Winton is one of the swiftest cars on the streets of this city. When it comes to class Fred is there.

FOR SALE—House, corner of Itasca and Wabash streets. Inquire of Leo Witter.

Mr. and Mrs. Edward Schellenger are spending the week in Minneapolis.

Miss Myrtle Blackmer departed for her home in the west Tuesday following an extended visit with relatives in this city.

The Methodist ladies' aid will hold a rummage sale November 9 and 10. \$20.27.

Adolph Urbank was in Wausau Monday.

Mrs. B. Powers of Kansas City is visiting her parents, Mr. and Mrs. W. E. Brown.

Mrs. E. Stowe, a former early day resident of Rhinelander, was here last week visiting old friends. She resides near Fond du Lac.

Mrs. James McGrath and baby daughter are guests of her parents, Mr. and Mrs. G. S. Coon, arriving from Chilton, Monday.

Mrs. E. A. Waskey of Heaford was the guest of Rhinelander friends Monday.

Mr. and Mrs. E. H. Thompson were Marshfield visitors during the week.

Mrs. M. Clifford of Neenah was called here Monday by the illness of her sister, Mrs. G. S. Coon.

Mrs. Della Fitzgerald is again in charge of The Comfort Shop after a visit in Marinette and Menominee.

Monday, Pat Dolan left here with a crew of men to work in one of the Stange Lumber company's camps near Merrill.

Mrs. A. W. Shelton will give a five o'clock tea Friday.

Helen Whitehead was thirteen years old Saturday and celebrated the occasion with a party.

Mrs. Stokes and sons are visiting Eau Claire relatives.

John O'Brien, assistant chief of police, is taking a lay-off from his duties.

Miss Alice Cass went to Stevens Point Tuesday where she attends normal school.

Mrs. Louis Dietrich is visiting Phillips friends.

Mrs. L. Pautz is home from a visit in Merrill.

Mr. and Mrs. Walter Hinners and Mrs. G. Rummery were Lac du Flambeau visitors Sunday.

Mr. and Mrs. Julius Gerber celebrated the Jewish New Year with friends in Wausau.

Miss Gladys Richter has gone to Milwaukee to attend normal.

August Hehn was a Milwaukee visitor this week.

LOST—Somewhere in Rhinelander a black broadcloth coat, lined with lavender. Return to Mrs. A. E. Hoover, Minocqua, Wis. \$20.

J. B. Lago, a former resident of Rhinelander, greeted old friends here this week. He is in the mercantile business in Antigo.

Mrs. Charles McDonald was in Wausau the past week visiting her parents, Mr. and Mrs. C. B. Mayer.

M. C. Graff of the University Extension Bureau, transacted business here this week.

Frank Timlin and mother, Mrs. A. L. Timlin, Mrs. R. H. Johnson and Miss Mary Virginia Patterson of New York, motored to Rhinelander on Sunday, where they visited a few hours with relatives and friends. They returned home in the evening.—Wausau Pilot.

Neal Slocum, formerly with the Johnson Electric company of Marshfield, has taken a position with the Rhinelander Light & Power company.

## GREAT OPPORTUNITY FOR SHEEP RAISING IN COUNTY

The Great Lakes Wool Association which met at the Union Stock Yards on Sept. 11 and 12, was attended by W. D. Juday, C. P. Crosby, E. O. Barstow and W. W. Thayer from this county, and Mr. Jeffries from Jeffries.

The meeting lasted two days and was addressed by many speakers, advocating the greater increase of sheep raising, not only for the meat, but for the wool and skins. It was pointed out repeatedly, especially by the manufacturers of cloth and clothing who were present, that the supply of wool has fallen down to that extent that clothing is now made with not over 40% wool, the balance being cotton or shoddy. They say that there will be no improvement in this respect for years, unless everyone bestirs themselves and takes up sheep raising.

All this leads to the question, "Is Oneida county doing its share in raising sheep?" There is all this wild grass and clover going to waste, on all sides, and it can be manufactured right into the best of wool, that is now worth 80 cents per pound, and into meat and sheep skins, all of which brings big prices. In fact, it looks as though a sheep would yield as much money per year as the average cow, if she is taken care of, and her lambs and fleeces all taken into account.

Mr. Hogenboom of Westboro, Taylor county, reported that it takes a ton of clover to winter four sheep, and at ten dollars a ton, this would amount to \$25.00 per sheep. The rest of the year the sheep can take care of itself, on the cut-over land. The fleece will bring in \$7 to \$10; the lambs will bring about \$12.50 apiece, and an average of 1 1/2 lambs to the ewe this would all amount to about \$25 for the product of one ewe per year.

Every farmer in Oneida county ought to take up this sheep proposition, and not only do something for his country and for his fellowmen, but make some good money for himself.

There are quite a lot of sheep in this county already, and others can be secured from the Stock Yards at Chicago. The Great Lakes Wool Association have arranged with the stock buyers to get selected ewes in carloads or less at any time, selections to be made as soon as the order comes in, and shipments made the same day. Arrangements can doubtless be made at the banks to furnish a part of the money necessary, and it was stated that the Federal Reserve Banks will discount sheep notes, on a 6 months basis and then renew them for six months more, that the lambs would come to maturity and the money be ready to pay the notes by the time they fell due the second time.

Mr. Barstow and Mr. Juday are ready to explain matters to any interested persons and it is hoped that farmers generally will take up sheep raising.

## A Penny Saved Is A Penny Earned

It's just like putting money in the bank to trade at the CASH & CARRY STORE. Pay cash and carry home your purchases and see how easy it is. Everybody these days is contracting the Market Basket Habit. GET THE HABIT!

## COURT SENTENCES MISS MANITZKE

### Young Girl Gets Indefinite Term In State Industrial School

Miss Frances Manitzke, the 17 year old Wausau girl who was arrested by Chief of Police Straub Friday on a charge of forgery, will spend the next few years, possibly until she has reached the age of 21, in the state industrial school for girls in Milwaukee.

In juvenile court Tuesday afternoon Judge H. F. Steele sentenced the girl for an indefinite term in that institution, the length of the time to depend on her behavior. During the proceedings of the case spectators were barred from the court room. Miss Manitzke repeated the story told the authorities following her arrest, that the checks were issued by a woman accomplice named Smouldre, that she had cashed them and turned them over to the woman. This story is doubted.

The girl's parents were in the court room and informed the court that their daughter was incorrigible. She left school about three years ago and since then had spent little time at home, preferring to go about from city to city, working when possible and keeping questionable society. Miss Manitzke stated that her home was unattractive for her and while there she had little opportunity to make money. She is rather a pretty girl, of a blond type and impresses one with her manner of apparent innocence. She broke down and wept during the trial.

Miss Manitzke was taken into custody Friday at the residence of the Misses Brown, where she was employed as maid, following the discovery of several bogus checks, which the girl was alleged to have passed on local business men. W. T. Stevens, Paul Browne, O. A. Kolden and Miss May Brown were among the names signed to the checks which in all reached about \$75. The checks were made out to Mary Nomen, which name was found to be fictitious. A check for \$16 which the girl cashed at Hart & Gerber's store, lead to her undoing. Mr. Hart found the check to be a forgery. He notified Chief Straub to whom he gave a fair description of the girl. The chief soon located the girl at the home of the Misses Brown. At first she denied the accusation, but under the chief's questioning soon confessed her guilt.

At the county jail the girl told the sheriff's force that she had cashed the checks for a friend, known as Miss Smouldre, who hailed from Milwaukee. Miss Smouldre is believed to be a conception of the girl's mind.

## WED IN TOMAHAWK

At the Tomahawk Catholic church at an early hour Monday morning, Miss Mary Hein of Tomahawk, became the bride of Mr. Homer McLaughlin of this city. The ceremony was performed in the presence of a large number of relatives and friends, many from Rhinelander attending.

Miss Henrietta Hein attended her sister and Mr. Clarence Lyones was the groomsmen. The bride wore a traveling suit of brown with a hat of brown velvet and gold lace and carried white roses. Miss Hein was attired in blue and carried carnations.

From the church the party repaired to the home of the bride's parents where they partook of a sumptuous wedding dinner. The house was attractively decorated for the occasion, which also marked the bride's mother's birthday anniversary.

Among those present from this city were Mr. and Mrs. O. H. McLaughlin, Miss Irene McLaughlin, Mrs. A. Hein and family, Mr. and Mrs. J. Bodwin and daughter, Mr. and Mrs. P. J. Cain, Mrs. L. Larson, Misses Martha Miller and Jean Hamilton.

The newly married pair are popular among their host of friends in Rhinelander and that their journey through life may be a long and pleasant one is the wish of all.

After a two weeks wedding trip they will commence housekeeping on River street where the groom has prepared a cozy home.

## LENOX

Misses Katherine McLaughlin and Mattie Kearns, spent the week end at Rhinelander.

Mr. and Mrs. P. E. Palbaska autoed to Cranston Saturday.

Alex McGillis of Pelican Lake was in town.

The Tousey and Tousey Indian show showed at Lenox Sunday. A large crowd attended. After the show there was a dance. All report having a fine time.

Ed. Wolgram and Peter Palbaska autoed to Pelican Monday.

All who attended the dance at Abe Lewis' hall Saturday, report having a fine time.

Otto Molle left Monday for Antigo.

## GOODNOW

Mr. Arneson is moving his saw mill to J. P. Stoddard's and will start sawing by the 21st.

Mrs. Erlitz was a Tomahawk caller Monday.

J. P. Stoddard took a load to the show at Harshaw Tuesday night.

Mrs. Simons departed Wednesday night for a visit with her parents.

Mr. and Mrs. J. B. Loomis were Rhinelander callers Saturday.

The Bowdens were lucky fishermen. Carl Bowden caught a thirty pound musky Tuesday and George Bowden caught a twenty pound one Thursday.

C. F. Steele was a Minocqua caller Thursday.

Mrs. Loomis was a Minocqua caller Tuesday.

Carl Bowden was a Minocqua caller Thursday.

There was a hard frost here Sunday night which killed all of the things.

### MISSION FESTIVAL

The annual mission festival of the German Lutheran church will be celebrated Sunday, Sept. 30, at the Lutheran church on Stevens St. Two services will be held, German at 10:00 a. m. English at 7:30 p. m. A speaker from out of town has been engaged. More particulars will be made known next week.

There will be regular church service at the German Lutheran church next Sunday at 10:00 a. m.

### CASE CONTINUED

The case case against Julia Hemmphner of Three Lakes, charged with assault and battery, was continued in municipal court until next Saturday.

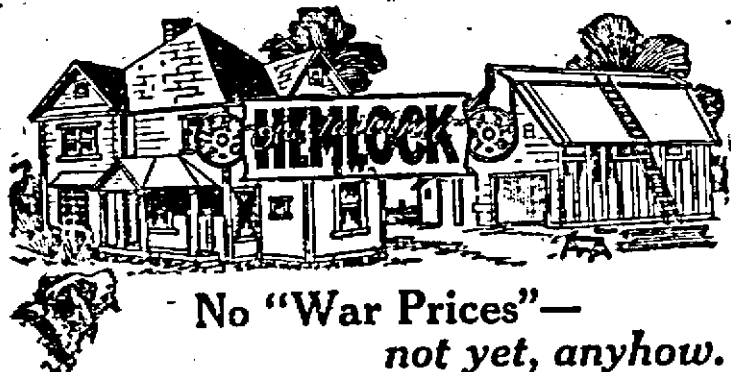

### A "Wild Hair"

A "wild hair" is the most annoying freak of nature a man can be afflicted with. It grows in from the eyelid instead of out and, constantly brushing against the eyeball, sometimes causes an irritation that results in a loss of sight. To pull it out gives only temporary relief, since in a few weeks it comes back, as well grown and strong as ever. The only way to kill it is to destroy the sac from which it springs. This is done by means of the electric needle.

Population of Holland.  
Official statistics give the population of the Netherlands as 6,553,228, made up of 3,270,559 males and 3,282,667 females.

During the last twenty years the population of the country has increased annually from 1 1/4 to 2 per cent. The increase has been practically equivalent to the excess of births over deaths as the number of immigrants and emigrants has been substantially the same.

Amsterdam is still the largest city in the country by over 100,000 inhabitants, its population being 623,403.

No "War Prices"—not yet, anyhow.

For hundreds of years "Old Faithful" HEMLOCK has been the standby of the American farmer—his lumber "friend in need." Again this year it comes to his rescue. He must increase his barns, granaries and outbuildings of all kinds this year, for it's up to him to feed the world. HEMLOCK will do its bit.

"Old Faithful" HEMLOCK is still cheap!

We want him to know, before he begins to build anything, about our

### FREE PLANS AND SPECIFICATIONS

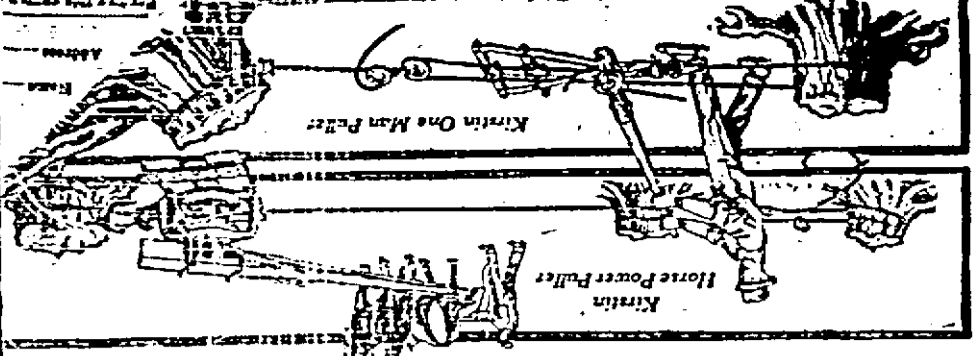

for HEMLOCK buildings—houses, barns, garages, granaries, etc.—and how to get them from his local lumber dealer, with our HEMLOCK Coupon.

All that's necessary is to WRITE "The Hemlock Manufacturer," Oshkosh, Wis., and tell what sort of a building you intend erecting—that will bring both book and coupon. These plans and specifications are drawn by our expert architects. Write today—bring coupon to us when it comes and get plans and specifications free.

## FOUR IN HUNDRED DIE IN BATTLE

Unwarranted fears are felt by relatives of the hundreds of thousands of young men now being mobilized in the armies of the United States. An examination of official data should reassure them.

Eighty thousand young men out of 10,000,000 registered would die in a year under ordinary conditions in peace time. The figures show that they die at the rate of 6666 per month or over 220 a day. If the entire 10,000,000 who are registered went to war, the list of deaths during the first year would be sickening when decorated with headlines in the newspapers. The actuary's table shows that 80,000 of them would drop out one by one if they remained at home.

"War is hell" in its casualties, but it's less than four in a hundred, on the average, who die for their country.

M. Andre Tardieu, French high commissioner to the United States, recently showed that the armies of today are suffering smaller losses in proportion to their size, than the armies of other wars, and among the armies of the Allies the losses are steadily decreasing. He gave these figures concerning the French army. Percent of casualties in proportion to mobilized strength:

Battles of Charleroi and of the Marne, 54.1.

First six months of 1915, 2.39.

Second six months of 1915, 1.63.

First six months of 1916, 1.47.

Second six months of 1916, 1.28.

American soldiers go to the battle front under the most advantageous circumstances. They are being taught all that the Allies have learned in their years of war and they are equipped with the latest weapons and devices for offensive and

## MOURN LOSS OF LITTLE DAUGHTER

From Inwood, Iowa, Monday came the sad news of the death of Alice Snarremo, the six year old daughter of Rev. and Mrs. J. A. Snarremo of this city. The child was

with her parents in Inwood, which is the home of her mother, when the summons came.

The little girl was afflicted with inflammatory rheumatism. A short time ago her parents took her to Iowa with the hope that the climate would help her. However, her decline was gradual until death came to her relief Monday morning.

Alice was a bright, lovable child and her taking away causes the deepest sorrow among her playmates and all who knew her. In their hour of anguish Rev. and Mrs. Snarremo have the heartfelt sympathy of the entire city.

## The New Fall Dress Fabrics Are Creating Unusual Interest

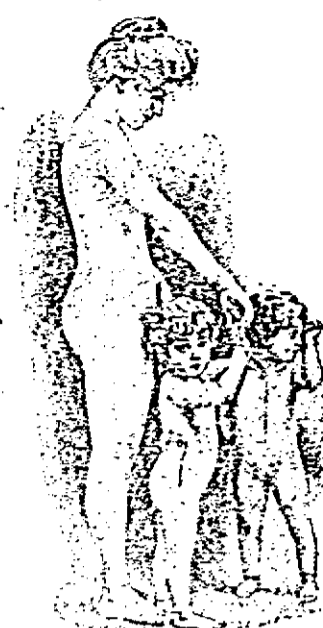

This was only to be expected for what woman can resist the attractiveness of such beautiful fabrics, as may be seen daily at our counters. The colors are so rich. And while stocks are complete, hosts of customers prefer to make selections now, so that they can have their dresses and other garments fashioned of the choicest, newest and most original designs of the season.

**Full 54 inches Wide  
Broadcloths \$2.50 a yd.**

The most wanted material in the store for the new suits and coats. The range of colors includes Burgundy, dark blue, brown, black and green. Soft, all-wool fabric in a medium weight.

**All Wool Henriettas  
75 cents a Yard**

A firm, smoothly-finished fabric that is in great demand and used quite extensively for dresses and children's wear. Both attractive and durable. 36-inches wide, several colors.

## Dependable Underwear

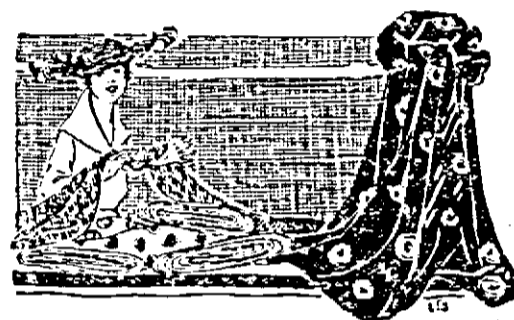

The above headline is rather brief—but it carries much of importance to those who want to secure garments that they can depend upon; for at this store the word "dependable" does NOT merely refer to price, but the value in merchandise received. We have provided a wide range of sizes and such styles as have proven in greatest demand in past seasons. Better make up your mind to pay us an early visit and make your underwear purchases AT ONCE.

**Women's Medium Weight Union Suits 79c.**

"Perfect Make" union suits that button at the shoulder. Also V neck union suits, sleeveless or with sleeves—knee length, wide lace trimmed; or ankle length. Knit underwear of QUALITY at prices that are extremely moderate.

**Children's Stockings 29c.**

Good sturdy hose, reinforced at toes and heels. The mother who wants to do as little darning as possible will be especially interested. In black, tan and white.

**A Fine Quality Mixed Wool Poplin  
at \$1.75 a yard**

Although this is only half wool, it will give splendid service—while its price is much less than the all-wool. 42 inches wide and may be had in full range of season's best colors.

**All Wool Autumn Plaids, \$2.25 to  
\$2.75 a Yard**

Undoubtedly the prettiest material for a skirt; will also make up stunning frocks for the young miss. They are 56 inches wide; should give unusually fine service. The plaids are in the favored blues, greens and browns.

**Women's Cotton Ribbed Pants 40c.**

In medium and extra sizes; of a finely ribbed cotton. Umbrella or lace trimmed styles; button on the side.

**42 inch Gabardine \$1.65 a Yard**

An excellent quality. In such shades as navy, green, grey, Copenhagen, brown, and black. Early selection is strongly urged as the price is in force only while the quantity on hand lasts.

**The Much Wanted Colored Serges  
54 in. \$1.50 a Yard**

As you know, there is no fabric in the market to-day that had as great a demand as serge—particularly navy blue. This an all-wool fine twill weave—and ABSOLUTELY FAST BLUE.

**Women's Cotton Ribbed Vests 40c.**

Have deep cut-out necks; either sleeveless or short sleeves. Exceedingly elastic, fine rib and fits the body snug and comfortable.

## GETS \$50 FINE

Charles Dixon of Three Lakes Charlee Dixon of Three Lakes was fined \$50 and costs by Judge C. F. Smith when he pleaded guilty to hunting deer with dogs. Gwid and McKenzie, conservation wardens, were responsible for McKenzie's arrest. Game law violations in the vicinity of Three Lakes have been numerous during the last two or three weeks, but in nearly every instance the wardens have succeeded in bringing the offenders to account.

## DR. MURPHY TO JOIN COLORS

Dr. E. R. Murphy has received word from the Surgeon General that his name has been placed on the list of available surgeons who hold a commission in the Medical Officers' Reserve Corps, these surgeons to be used when emergency arises. Dr. Murphy has also been elected to membership in the Association of Military Surgeons of the United States. The probabilities are that he will not be called into service until spring.—Antigo Journal.

## GOING TO KANSAS

Mr and Mrs. G. W. Blaisdell and son, Windsor, depart the forepart of next month for Weir, Kansas, where they will spend the winter and may remain permanently. It is thought that the Kansas climate will prove beneficial to the health of Mr. G. W. Blaisdell, who passed through a serious illness last winter.

## SELF IMPROVEMENT.

Strive at all times and under all circumstances for self improvement. Every real and searching effort at self improvement is of itself a lesson of profound humility, for we cannot move a step without learning and feeling the waywardness, the weakness, vacillation of our movements or without desiring to be set upon the rock that is higher than ourselves.—Gladstone.

## The Ocean Floor.

The ocean does not sink into the earth owing to the fact that there is a kind of substance at the bottom of the ocean which the water cannot penetrate, in spite of the tremendous pressure which the great body of deep water exerts. In all places where the bottom of the ocean has a covering which water can sink into it does so, but there are such a few places where this is possible, by comparison, that the amount that gets out that way is not noticeable, says the Book of Wonders. This water, if it can keep on going, will eventually reach the inside of the earth, where it is red hot, and is turned into steam.

Pascal has a beautiful definition of rivers. He says they are roads that march.

Anything that brings trees more closely to our attention and that makes us realize their very great importance is of distinct value as an educational agent.—N. L. Britton.

Maryland sent tobacco to France and Holland three centuries ago. It sent the identical variety of tobacco to those countries last year.

Self made men, the genuine kind, never consider themselves finished.—Tobacco Blade.

**Safe Constant Heat For Your Garage**

**WASCO**  
GARAGE HEATING SYSTEM  
READY TO SET UP

**Coal-Burning, Self-Regulating, Safe, Hot Water Heating System for 1-Car Garage, Complete \$65.**

Other sizes for 2- to 10-car private Garages at prices that are surprisingly low. Any handy man can set up WASCO in a short time. The expense of one freeze-up would pay for a WASCO Heating System.

Burns only about 5 cents worth of coal a day. Requires attention once or twice daily. WASCO makes winter driving a pleasure.

Telephone or Write us for More Details and Big Illustrated Catalog that gives the experience of users last winter.

**LOWELL-CHAFEE COMPANY**  
— Rhinelander, Wisconsin.

State of Wisconsin, In Circuit Court, Oneida County.  
George Ruder Brewing Company,  
Plaintiff,

vs.  
James N. Baudin and Amanda Baudin, Defendants.

Notice is hereby given that by virtue of a judgment of foreclosure and sale rendered in favor of the plaintiff and against the defendants in the above entitled action on the 30th day of June, 1916, and docketed in the office of the Clerk of the Circuit Court on said day, I, the undersigned Sheriff of Oneida County, will offer for sale and sell at public auction to the highest bidder for cash, at the front door of the Court House in the city of Rhinelander, in said county and state, on the 7th day of November, 1917, at 10 o'clock in the forenoon of said day, all the right, title and interest of the defendants in the following described premises named in said judgment, or so much thereof as may be sufficient to raise the amount due to the plaintiff for principal, interest and costs, including the costs of sale, to-wit:

A part of the NW 1/4 of the SE 1/4 of the SE 1/4 of Sec. 2 T. 29 N. R. 6 E. Oneida Co., Wis., lying south and east of the Woodruff and Minocqua road described as follows: Commencing at what was before judgment of vacation the NE corner of Lot One, Block One Antoine Toussaint's First Addition to the Village of Woodruff, thence West on the North line of said Block One to the NE corner of Lot Fourteen in said Block, thence South on the East line of said Lot Fourteen to the SE corner of said Lot Fourteen, thence West along the South line of said Lot Fourteen to the West line of the alley lying West of said Lot Fourteen, thence North on the West line of said alley to the NE corner of Lot Fifteen in said Block One, thence West on the North line of said Lot Fifteen to the Woodruff and Minocqua road, thence South westerly along the Easterly line of said road to the Southwest corner of Lot 30 in Block 2 of said addition, thence East along the South line of said Block Two to the South west corner of Lot Fifty in said Block Two, thence North on the East line of said plat to the place of beginning, being those parts of Blocks One and Two in Antoine Toussaint's first addition to the village of Woodruff vacated by judgment of Circuit Court of Oneida Co., Wis., as recorded in Vol. fifty-two of deeds, page 237 and as shown by plat marked in red pursuant to the terms of said judgment in Vol. 2 of plats in the office of the Register of Deeds of Oneida Co., Wis., containing 8 acres more or less according to survey.

Dated at Rhinelander, Wis., this day of September, 1917.

PEOPLE WE DON'T LIKE

The sort who pose  
As well as those  
Who never laugh but cackle,  
The witless wag  
Who pulls a gag  
On anything he'll tackle;  
The weary wight  
Who's so polite  
He says "Indeed!" and "Surely!"  
The crazy cuss  
Who comes to us  
To say we're looking poorly.  
Who chews cigars  
Who talks of "cars"  
And never hope to own one,  
And those who wheeze,  
"Who is this, please?"  
Most everytime they phone one;  
Who call it "deed,"  
Who always leel,  
Who talk with wiggling features,  
The many who  
Are anxious to  
Reform their fellow creatures.  
Who borrows things  
And never brings  
'Em back, the Chronic Kicker.  
The lary lout  
Who loafs about  
But likes to bray and bicker;  
We'll add some more  
That grate and bore,  
Our list is quite a shocker,  
But we must close,  
For goodness knows  
The worst of all's the knocker!  
Topeka Journal.

HITS THUMB WITH HAMMER

**MINOCQUA**  
(Minocqua Times)

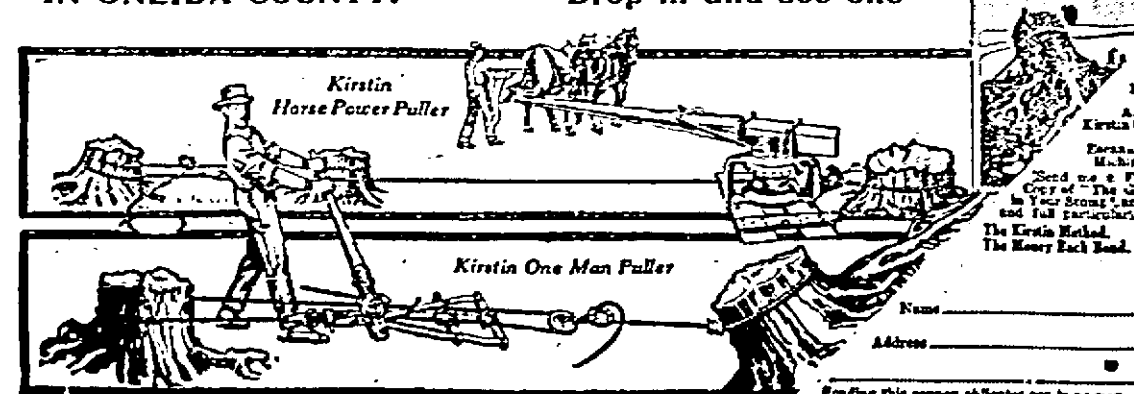

Colonel Lassiter and family of Fort Worth, Texas, departed for home last Thursday after spending the summer at the Northern. Mr. Lassiter has been one of our summer visitors for the past twelve years.  
Mr. and Mrs. H. M. Talbutt of Indianapolis departed for home after spending the summer here. Mr. Talbutt has been coming to Minocqua for over twenty years and owns one of the most beautiful summer homes on the lake.

A crew of men are now busy cleaning out the basement on the lot recently purchased by Sam Hurwich from Mrs. T. M. Bolger. We are informed that Sam intends to build a two story brick building on the lot, the lower story of which will be occupied by the Fair Store. The upper story will be used for dwelling purposes. We can readily see that Sam is in need of a nice new store building, but the rooms in the upper story to be used for dwelling purposes are mystery to us.  
Dave Jossart returned home after a three weeks' fishing trip in the Hudson Bay country. He acted as guide for R. W. McHannon and Dr. Frank Bacon of Chicago and E. D. Pratt, one of the partners of the famous Chelds restaurants of New York City.  
As proof of the "big ones" the party caught, Dave presented the editor of the Times with a large speckled trout, measuring eighteen inches, which is by far the largest one of this variety we ever saw.

## Order of Hearing Petition to Sell Real Estate to Pay Debts, Etc., State of Wisconsin, County Court for Oneida County.

In the matter of the estate of Oscar Olsen deceased. In Probate.  
On reading and filing the petition of Johannes Bohms dahl of the estate of Oscar Olsen deceased, representing among other things that said deceased died seized of certain real estate therein described, and that it is necessary to sell or incumber the same to pay the debts of said deceased, and praying for license to sell the same, and it appearing to the court that the personal estate in the hands of said administrator is sufficient to pay the debts of the said deceased, and expenses of administration, and that it is necessary to sell or incumber all of said real estate for that purpose.

It is Ordered, That said petition be heard at a regular term of said county court, to be held in and for said county, at the court house in the city of Rhinelander on the 2nd Tuesday (being the 9th day) of October, A. D. 1917, at 10 o'clock A. M.

It is Further Ordered, That this order be published at least three successive weeks, before said day fixed for the hearing of said petition, in the New North a weekly newspaper, published at the city of Rhinelander in said county, and that a copy thereof be served on all persons interested in said estate and residing in this county.

Dated Sept. 11th, 1917.

## SCANDINAVIAN NEWS

### SUMMARY OF IMPORTANT HAPPENINGS IN FAR OFF NORTHLAND.

### ITEMS FROM THE OLD HOME

Resume of the Most Important Events in Sweden, Norway and Denmark—Of Interest to the Scandinavians in America.

#### NORWAY.

Washington.—Norway is likely to fare better than any other neutral under the rulings of the exports administrative board. Dr. Fridtjof Nansen, head of the Norwegian economic mission, is understood to have made such strong guarantees that the United States is ready to deal liberally with his government in the matter of foodstuffs and other commodities needed. Norway has received protests against some things of benefit to Germany that have slipped by Norwegian officials. Doctor Nansen was sent for expressly to straighten out this complication. It is stated on highest authority that Doctor Nansen admitted that in the past there had been negligence in dealing with imports from the United States. The Norwegian government stands pledged absolutely to prevent any imports from reaching Germany or her allies. It is stated that license for a number of cargoes destined for Norwegian ports will be issued within a few days. According to Norwegian advices 21 Norwegian merchant ships, with an aggregate tonnage of more than 41,000, were lost in August. Twenty-three seamen were killed and five are missing.

Conrad Mikkelsen, who has just returned from a trip to Norway, says: "Sweden is full of German sympathizers. Norway, on the other hand, has no place for them, and whenever it can quietly do the allies a good turn it does so. Norway's only concern is a fear that a famine will be forced on the Scandinavian countries if war is not brought to an early end. It is becoming increasingly difficult for Norway and Sweden to import food. Norway and Sweden suffer the worst effects of the war. Norway's losses in steamers, fishing smacks and vessels of all kinds is enormous. Not one-half of the losses have been reported. The boats in many instances have been torpedoed without notice. Popular sentiment is going through the same course which it has gone in this country. The people are in a mood to demand war."

With regard to foreign spies a correspondent writes to an American newspaper: "We are living in constant fear of a whole band of robbers. They fell upon us in a worse fashion than any footpads that ever assaulted us. We are compelled to look with suspicion and contempt upon all these high-toned foreigners who act so haughtily in our plain surroundings, boasting of their money and titles and colossal superiority. When we run up against 'barons' and 'counts' we feel as though we were in the presence of fugitive galley slaves and paid bandits."

A few days ago the entire cabinet held a secret session to consider the American embargo. The deliberations lasted a long while. The result was not announced.

#### SWEDEN.

Crop reports from Scandinavia—Weather unfavorable. Threshing progressing but quality not good. Import needs large and arrivals at all ports practically nothing. The agricultural outlook generally disastrous. Supplementing a previous decree prohibiting the feeding of wheat or rye to animals, the American minister at Stockholm reports that the Swedish government now forbids the use of growing wheat or rye as fodder for animals. An Atlantic Port.—Three Swedish freight steamships, the Africana, Magda and Bris, which have been held here for several weeks loaded chiefly with grain for Gothenburg, and unable to sail on account of the embargo, were ordered unloaded, and the vessels probably will return to South American trade, according to a report here. According to latest official statistics, Sweden's crops will this year be much under average, with the exception of potatoes, of which a normal yield is expected. Sweden will, therefore, be forced to considerable reduction of quantities of grain, regularly used for feeding domestic animals.

Fire broke out in the buildings on the royal farm on the island of Hveen, and the barns and other outbuildings were destroyed. About 40 cows and 27 hogs were burned to death. Large quantities of fodder were also lost. The entire loss was covered by insurance.

Regular mail and passenger traffic by hydroplanes between Sweden and Russia will be established in the near future, if negotiations now said to be in progress between Stockholm and Petrograd meet with success. During the war passengers and mail between the two countries often have been delayed days, in some cases weeks, causing considerable inconvenience to Swedish business men.

The Eolus Insurance company of Bergen has donated \$9,000 to charitable concerns.

A farmer at Vansø discovered interesting inscriptions on a rock in the open country. The pictures of seven rixing ships are plainly visible, not even the dragons' heads missing. There is an old burial mound close by. Similar inscriptions have been found at Kalleberg and in Jaderen. In every case of this kind there seven ships are outlined. It goes without saying that all these inscriptions date from the rixing age. In a burial mound at Klepp was found a bronze sword, from the twelfth or thirteenth century before Christ. It is a huge affair—over seven feet long and also very wide. It was covered by large stone slabs.

#### FINLAND.

New York.—Smashing a Scandinavian-American Athletic league record, Villar Kyronen today holds a notable victory over his old rival, Hannes Kolmalm. He defeated Kolmalm in the three-mile event at the annual Scandinavian-American games, winning in 15:27. The old record, 15:37, was set by Kolmalm in 1913. Both Kyronen and Kolmalm are Finlanders.

Helsingfors.—Russian troops occupied the parliament buildings here to prevent the reassembling of the landtag in defiance of the decision of the Russian government. The city is calm. The Helsingfors council of workmen's and soldiers' deputies has ordered the crews of warships to return to their vessels.

#### DENMARK.

T. Stauning, socialist member of the Danish cabinet and leader of that party in the rigsdag, finds much to approve in President Wilson's reply to the pope's peace proposal. Minister Stauning said: "I am of the opinion that President Wilson's answer to the pope's message is a highly promising sign and I see from it what I had expected. That Mr. Wilson does not wish the war to be continued to the end where there will be victors and defeated. I firmly believe that the president of the free United States will again be seen busy at bringing about peace. The paragraph of President Wilson's words which opposes a violation of the people's sovereignty, the imposing of indemnities, the splitting up of countries and the making of an egotistic and economic war will be read with joy by every one wishing a happy and lasting peace. I hope that Mr. Wilson's wise utterances may find echo and show their influence in other belligerent countries. The American people will doubtless understand that in little Denmark where I live there is a burning longing for peace, both on account of consideration for our fellow beings and for the sake of future humanity and because industry, trade and commerce and the possibilities of the development of our own country are so highly dependent upon conditions in other countries. Therefore, as a Dane I am exceedingly glad to hear such convincing words as now again have been uttered by President Wilson, and hope that his endeavors may be continued and the goal reached before long."

Drinking and smoking will really be luxuries in Denmark under the new taxation program just introduced in the rigsdag. This provides for a special tax on wines equal to the retail price per bottle, and almost doubles the tax on beer, making it, according to the president of the Brewers' league, the highest in the world. The measure increases the tax on cigars, cigarettes and tobacco to from 20 to 33 per cent of the retail price. It fixes a special tax of 10 per cent on all sales of jewelry and precious stones. The income tax on incomes of more than \$1,500 is increased by 33 to 75 per cent. The property tax on property of the value of \$3,750 and upward is virtually doubled. A 25 per cent increase in railroad passenger and freight rates is provided.

Violation of Denmark, if necessary to the realization of Germany's scheme to declare the Baltic sea closed was planned by the kaiser as early as 1905. It is revealed in the secret correspondence between the German and Russian monarchs, recently found in the private archives of the exiled czar. The messages, from "Willy to Niek", proposed to make Denmark, by intimidation, an ally to the scheme, and, failing that, to occupy Denmark in case England declared war in opposition to the plan. The resolution to seize Denmark as ruthlessly as he has invaded Belgium was decided upon by the kaiser after he met the czar clandestinely off the island of Bjørke on the Swedish coast.

Considerable increase in the infantile death rate in Denmark because of scarcity of proper food has caused alarm among Danish officials. Special consideration is, therefore, given to babies in the new food legislation. Every child under two years of age will receive one quart of milk a day. To poor families this milk will be delivered at the expense of the royal food commission.

Denmark has been one of the most important breeding countries of Europe. This industry has to a large extent been dependent upon the importation of fodder. There is now the serious problem of feeding the greater part of Denmark's live stock on domestic fodder. But the greater part of these productions made from grain can be used for people, which means sharp competition at the present time in Denmark between human beings and domestic animals for the same feed. This will force the slaughter of a large number of cattle.

## GOING TO SEA

Allen Brown, who is in the United States naval service, is visiting his parents, Mr. and Mrs. W. E. Brown and other relatives here.

Since July last Allan has been attending the Annapolis naval academy, taking a training course for officers of the naval reserve corps. Allan holds the rank of Ensign and after completing his furlough he will be assigned to duty on one of the big men of war.

## AT ROADMASTER'S MEET

P. H. Flatley, Soo line roadmaster is in Chicago attending the convention of roadmasters from all parts of the United States. Over 1000 men in whose hands largely rest the safety of the traveling public are attending this convention.

## FINE COMPANY L PICTURE

In the display window of the Hill debrand furniture store is a photograph of Company L, taken while the company was in Camp Douglas. It is an excellent picture.

## DR. SCHIEK IN CITY

Dr. and Mrs. I. E. Schiek are visiting Rhineland friends. Dr. Schiek is in the army medical corps and has been stationed at Fort Riley, Kas. He is here on a ten day furlough before being assigned to some other post. He holds the rank of first lieutenant.

## LOSS FROM BAD ROADS.

(National Crop Improvement Service.) The U. S. Department of Agriculture estimates that the farmers of the nation are annually losing \$250,000,000 because of their inability to market their produce at certain times of the year. Counties which are rich in agricultural products are burdened with bad roads and it is of much concern to the farmers to see to the building of good roads. Good roads, 365-day roads, are insurance for continued community prosperity.

## VALUE OF STRAW.

(National Crop Improvement Service.) Don't burn that straw stack. You might just as well burn up dollar bills. In addition to returning actual fertilizing elements to the soil, it adds a large quantity of immensely valuable humus, if carefully spread over the fields.

## AMOUNT OF SEED CORN.

(National Crop Improvement Service.) From twelve to fifteen ears of seed corn are required to plant an acre. All corn should be germinated right now in order to test its vitality and you should throw out every weak ear you can find. It will not pay you to plant poor corn this year.

## The Trouble.

"Such a large proportion of telephone operators get married before they have been long in the service." "I see; it is hardly a case of ring off before it's ring on."—Baltimore American.

## What's More, It Has Two of Them.

Little Eva lived in Brooklyn. When her father told her he would take her on a trip up the river she was delighted, she had heard so much about the beautiful Hudson. As they were nearing New York on their return he asked her what she thought of it. She replied, "Why, papa, I think the river is just like any other river, but the sides are pretty."—Christian Herald.

## Swift Times.

"Why have you discontinued your column of comment on passing events?" "Events pass so quickly," explained the editor of the Plunkville Palladium. "there's no time for comment."—Kansas City Journal.

## Treenails.

"Treenails," or "trunnels," as they are commonly called, are cylindrical wooden pins used in fastening the parts of wooden ships together. It requires about 30,000 of these pins for an average sized ship.

## Perhaps.

Brushley—It's awfully annoying. Mary. Just as I am getting in the last touches on the canvas the wretched cat has to have a fit. Mrs. B.—Perhaps she caught a glimpse of the picture, dear.—Pearson's Magazine.

## Named in the Bible.

There are mentioned in the Bible the names of nineteen different precious stones, six metals, 104 trees and plants, thirty-five animals, thirty-nine birds, six fishes, eleven reptiles, twenty insects and other small creatures.

## THE GOLDEN RULE.

There are many ups and downs in this world of ours. That which has happened to one may happen to every man, and therefore in every act of our lives that excellent rule should govern us, "Whatsoever ye would that men should do unto you, do ye also unto them."

## Historic Peronne.

Many years ago Peronne, in France, was a great fortress. For 900 years or so it boasted itself Peronne la Pucelle a maiden city, which had never surrendered or been conquered. Readers of Sir Walter Scott's "Quentin Durward" will remember the little town "situated upon a deep river in a flat country," the "ancient walls and deep green meadows," to which Quentin came with his lady Isabel, to find Louis XI. in the grip of Charles the Bold. In the castle King John of France slept before the battle of Poliers, and 400 years earlier another king of France, Charles the Simple, was starved to death there.

## Daily Thought.

All the greatest men live in their purpose and effort more than it is possible for them to live in reality.—Buskin.

## Going to Bed in India.

Going to bed in India is a very different process from going to bed at home. To begin with, it is a far less formal process. There is in the hot season no shutting of the door, no cutting yourself off from the outer world, no going upstairs and finally no getting into bed. You merely lie down on your bed, which, with its bedding, is so simple as to be worth describing. The bed is a wooden frame with a webbing laced across it, and each bed has a thin cotton mattress. Over this one sheet is spread, and two pillows go to each bed, bolsters not being used. That's all. Some people do not even have the mattress, preferring the coolness of a piece of fine matting.

## Turtles and Their Eggs.

Turtles which weigh more than 150 pounds are not in demand, as the flesh becomes coarse with age. But these reptiles grow to 800 pounds and measure seven feet in length. The eggs of the green turtle, a great delicacy, are generally deposited in the sand in nests of sixty. If not found by man or eaten by rats or birds they are hatched out by the heat of the sun in about eight or nine weeks, and the young turtles at once make for the sea, where many of them fall victims to crabs or other fish.

## ONE YEAR IN REFORMATORY

Reuben Schafer, aged 17, was sentenced to one year in the Green Bay reformatory by Judge H. F. Steele in juvenile court Tuesday. The boy pleaded guilty to a charge of theft.

## Papyrus Books.

Early writers made use of linen or cotton fabrics, of skins and even of scales of fishes for writing. For a long period papyrus was used, the books being made in rolls, being about one and one-half feet wide and sometimes fifty feet long. Papyrus was a bulrush, growing ten feet high, found in the marshes of Egypt; from its inner pith the form of paper called papyrus was made. Papyrus sheets were neatly joined, attached to a stick and rolled upon it (whence we have our word "volume," from the Latin *volvere*, to roll). The titles were written on tags attached to the sticks or inscribed on the outside of the rolls. The rolls were kept in round wooden boxes.

## National Headdresses.

There is no such thing as a national headdress in America. Even the millions of immigrants and descendants of immigrants from countries possessing a characteristic headgear promptly discard any such distinguishing mark during their first week in the new world. Perhaps the fact that the English dominated our early history may account for our lack of peculiar headgear, for England is the only country in Europe which has not a distinctive national headdress.

Revenge is sweet, but it is apt to make the heart sour.

Electric cables are made fireproof with re-enforced concrete.
